REPORT IN RE SALE OF VALLEY BANK OF FRESNO TO PACIFIC-SOUTHWEST TRUST & SAVINGS BANK AND BANK OF ITALY ON MARCH 1, 1924.

REPORT IN RE SALE OF VALLEY BANK OF FRESNO TO PACIFIC-SOUTHWEST TRUST & SAVINGS BANK AND BANK OF ITALY ON MARCH 1, 1924.

October 22, 1925.

His Excellency FRIEND WM. RICHARDSON,
Governor of the State of California,
Sacramento, California.

DEAR SIR:

Pursuant to your written request therefor, I am submitting to you my official report of the facts and circumstances surrounding the sale and transfer of Valley Bank of Fresno to Pacific-Southwest Trust & Savings Bank and Bank of Italy, which transaction took place upon the first day of March, 1924, consisting of a chronological statement of facts leading up to said sale, a consideration of the illegalities and irregularities existing in the Valley Bank, together with a statement as to the condition of the Valley Bank prior to its sale.

I.

The Valley Bank was organized on the fifteenth day of January, 1921, with a paid up capital stock of $625,000, which was increased at various times until the paid up capital of the bank was $900,000. The bank was a departmental bank authorized to do a commercial, savings and trust business and was licensed to do business on the sixteenth day of April, 1921, by the then Superintendent of Banks, Charles F. Stern. The bank commenced business with a paid up surplus of $62,500.

In April, 1922, the annual examination of the Valley Bank was made, that is, about one year after the licensing of the bank. In November, 1922, in pursuance of the permission given by section 56 of the Bank Act, Superintendent of Banks Jonathan S. Dodge accepted in lieu of the regular annual examination the examination made by the Federal Reserve Bank on November 16, 1922. Slightly less than one year later, to wit, on November 13, 1923, the regular annual examination of the Valley Bank was commenced by Examiner R. C. Barth, who was placed in charge of the examination by Chief Examiner Wingate. In this case, as in most cases under the routine of the State Banking Department, the Superintendent of Banks was not aware of the commencement or making of the examination in advance, the matter being entirely in the hands of the Chief Examiner. The fact of the examination was not brought to my knowledge, therefore, until after Examiner Barth filed his report. This report was filed on December 4, 1923. Immediately thereafter the Chief Examiner perused the report of examination, which disclosed a very serious condition of affairs in the Valley Bank. Acting upon the advance information, on December 6, 1923, by letter I notified the Valley Bank not to pay any further dividends to its stockholders until adequate adjustment had been made, and advised them that as soon as possible I would present a detailed discussion of the affairs of the Valley Bank for the information of its directors, and urged that the management make every effort towards preventing a further extension of the present involved situation. This appears from the letter itself, a copy of which is attached hereto and

made a part hereof, marked Exhibit 1. Some discussion was had with the Department by W. D. Mitchell, President of the Valley Bank, as to the payment of a small dividend to stockholders, but the instruction not to pay a dividend was again given to the bank on December 20, 1923, by letter addressed to the Valley Bank. This appears from the letter itself, a copy of which is attached hereto and made a part hereof, marked Exhibit 2.

After receipt and filing of the report of examination, Chief Examiner C. B. Wingate and Examiner A. E. Bary began a full and complete analysis of the report, which consumed some days, and the matter was again brought to my attention when the usual examination letter to the bank was presented to me for my signature late in December, 1923. This letter set forth the facts concerning the condition of the bank, in so far as our examiners were able to unearth them during the course of the examination. The actual condition of the bank had been concealed, so far as possible, by the officials of the Valley Bank, and the actual condition was far worse than the report showed, as will be more fully set forth hereinafter. Sufficient facts were in our possession, however, from the examination, to show that the Valley Bank and many of its officers and directors had violated the provisions of the laws of this state and were conducting the business of the bank in an unsafe and unauthorized manner. It further appeared that the capital of the bank was seriously impaired. In short, from this examination and report I had reason to conclude and did conclude that the bank was in an unsound and unsafe condition to transact the business for which it was organized and that if the conditions were not rectified within a reasonably short time it would be unsafe and inexpedient for it to continue business, and the directors and officers were therefore ordered to make immediately the necessary adjustments in the affairs of the bank, as will more fully appear hereinafter.

In December, 1923, the board of directors of the Valley Bank appointed a committee to make the annual directors' examination of the bank, which is required by section 139 of the Bank Act. This committee consisted of several members of the board, including Director F. E. Osterhout. Mr. Osterhout wrote to the Department concerning the directors' examination, and in reply to his letter I urged that the directors in and on their own behalf and in their own interest should make a thorough examination of the Valley Bank, as our examination just concluded disclosed a serious condition which required the close and active attention of the entire board of directors. The committee making the directors' examination was entirely negligent in the performance of their duties with the result that the board of directors as a whole were not advised as to the condition of the bank, whereas the purpose of section 139 of the Bank Act was to require the directors themselves to familiarize themselves with the condition of their own bank. Mr. Osterhout as a director by letter later asked the Department for information concerning the bank, and was informed by letter of December 31, 1923, that the Department would address an examination letter to the directors of the Valley Bank within a very few days, which letter would require the signature of every director to the effect that he had read the letter and noted its contents. The above more fully appears from letter of Osterhout to Superintendent of

Banks under date of December 7, 1923, letter of Superintendent of Banks to Osterhout, under date of December 10, 1923, letter of Osterhout to Superintendent of Banks under date of December 17, 1923, letters of Osterhout to Superintendent of Banks under dates of December 26 and December 28, 1923, and letter of Superintendent of Banks to Osterhout under date of December 31, 1923, copies of which letters are attached hereto and made a part hereof and marked, respectively, Exhibits 3, 3a, 3b, 3c, 3d and 3e.

As a matter of fact, the directors' examination of the Valley Bank was never completed. However, the called report of Valley Bank made under section 130 of the Bank Act, as of December 31, 1923, falsely stated that the examination had been made by the board of directors on December 11, 1923, and was filed with the records of the bank on December 11, 1923. This called report was subscribed by W. D. Mitchell, President, and M. K. Crowell, Cashier. The purported report of the directors' examination was not in fact signed by the directors making the examination or sworn to as required by section 139 of the Bank Act and was never in a condition to be filed and never presented to the board of directors. As a consequence, certain of the directors of the Valley Bank were probably in ignorance of the bank's serious condition at the beginning of January, 1924.

On December 31, 1923, a letter addressed to the Valley Bank covering the recent examination thereof, was placed on my desk. This letter set forth in detail numerous irregularities in the conduct of the Valley Bank and numerous matters in their affairs which were subject to criticism. The examination disclosed illegal loans, bad and doubtful paper in a considerable amount and an excessive overhead cost of operation, all of which combined indicated a serious condition constituting a menace to the safety of the Valley Bank. It was found that loans had been granted to and for the benefit of the principal officers of the bank in direct violation of the prohibitions contained in the Bank Act; that the funds of the bank had been used in making speculative and unsound loans for the benefit of the controlling officers to an extent which indicated that the well being of the bank was being subordinated to the interests of the president and his associates and that the capital of the bank was seriously impaired. The bank was advised in this letter that the present condition was very unsatisfactory and that the directors had a problem confronting them in the organization of their management along proper lines. They were advised that the immediate write-offs to be made were large and that future write-offs would develop to a considerable amount unless they were both fortunate and energetic in guarding against losses.

Upon a careful perusal of the letter, the Chief Examiner and myself were convinced that it would be ill-advised if not dangerous to forward the letter to the board of directors without first having a personal conference, as certain of the directors who were more or less in ignorance of the affairs of the bank might become alarmed and talk on the outside as to the condition of the bank as set forth in the letter, and might cause unrest in the community. I therefore called in my attorney, Mr. James M. Oliver, and discussed this matter with him, and he concurred in the opinion that a personal interview should first be had with the directors as to the condition of the bank. A further

discussion was had on January 1, 1924, between myself, the attorney for the Department, and the Chief Deputy, Sigmund J. Janas, following which discussion a telegram was sent, ordering every director, the president and cashier of the bank, together with the Sanger Branch manager, to appear in person at the office of the Department on Saturday, January 5th, for a conference. The Superintendent of Banks also personally called W. D. Mitchell, President of the Bank by phone, and advised him of this decision of the Department. Mr. Mitchell stated that he would be in San Francisco on January 2d at 9 a.m. for a conference on the subject.

On January 2, 1924, W. D. Mitchell, President of the Valley Bank, Ivan C. McIndoo, its Vice President, M. K. Crowell, Cashier, and E. J. Fenstermacher, Secretary, attorney for and a director of the Valley Bank, appeared at the Department for a conference, at which there were also present the Superintendent of Banks, his attorney, his Chief Deputy, his Chief Examiner, and Examiner Barth. Mitchell requested that the meeting of the board called by the Superintendent of Banks for January 5th be waived or postponed for a considerable period. He pleaded that he would undoubtedly be able to effect a considerable improvement in the bank's condition within thirty days if the meeting were postponed, but no information to support his request was presented and his ability to do so was discounted by the examiners and attorney for the Department. After a lengthy discussion, the representatives of the Valley Bank were informed that the Superintendent of Banks could not waive his request for the directors' meeting upon January 5, 1924. As Superintendent of Banks, I advised Mitchell that I considered his bank was largely a one-man institution, and that I did not believe the directors were fully advised of the facts as to the condition of the bank and that it was necessary to call them in and advise them of these conditions and to ascertain if they were cognizant of the methods that had been pursued in the bank. The above facts are also shown by a memorandum by Chief Examiner Wingate, a copy of which is attached hereto and made a part hereof, marked Exhibit 4.

Following this meeting of January 2, 1924, M. K. Crowell, Cashier, returned to the office of the Superintendent of Banks and had a personal conversation with Chief Deputy Janas, in which he stated that he had been afraid of trouble in the Valley Bank for some months, that he would have gotten out but was faced by the fact that if he did so Mitchell would then proceed to lay the blame on him for committing certain acts which were not in accordance with the Bank Act; that as cashier he had endeavored to build up a secondary reserve in bonds, but that Mitchell had fought him at every inch of the road and he had finally had to abandon the effort. Crowell also stated that he was afraid the Superintendent of Banks would not carry through his apparent intention of dealing with the bank in a strict way, because this was the first time Mitchell had met anyone who had made any effort and who was able to handle him. This appears from a memorandum given to me by the Chief Deputy, a copy of which is hereto attached and made a part hereof, marked Exhibit 5.

On January 5, 1924, the President and entire board of directors of the Valley Bank, excepting T. J. Field of Monterey, met with the Superintendent of Banks, his attorney, his Chief Examiner, his Chief

Deputy, and Examiner Barth in the office of the Superintendent of Banks. As Superintendent of Banks, I explained to the board the gravity of the situation confronting them and their bank, and the board was sworn not to discuss the matters discussed at this meeting with anyone outside the membership of the board. This was for the purpose of preventing the condition of the bank being spread by members of the board, the directors being warned that the condition of the bank was such as to justify the utmost discretion and caution in refraining from any outside discussion of the bank's affairs with anyone whatsoever. Chief Examiner Wingate then proceeded to read the examination letter which had been prepared. As he proceeded with the reading of the letter, both myself and my attorney inquired of the directors if they understood or if they had known of the various transactions criticized in the letter, and elicited the information that most of them were not conversant with what had been going on in the Valley Bank. Every effort was made to give to the directors a complete statement of the point of view of the Department and they were emphatically informed regarding their duty in the premises of providing a management which would conduct the bank economically and efficiently within the limitations of the law and sound banking and that it was their duty to review all loans then in the bank and inform themselves as to their real worth and endeavor to determine upon some practical program for dealing with whatever impairment might be revealed by subsequent examination by and on behalf of the directors. The board of directors promised to attempt to correct the condition of the bank and promised to submit a program for cutting expenses in the bank and also promised to report adjustments regularly. Mr. Mitchell asked that thirty days time be given him in which to correct the condition of the bank. I told him that I knew no improvement or betterment of the condition could be had in thirty days and said that I was willing to give a longer time if the board of directors would take proper steps to correct and would correct the conditions within the bank. At this meeting the directors stated that an assessment could not be met if levied.

On Monday, January 7, 1924, the first page of the examination letter originally prepared was rewritten to incorporate the record of the fact of the holding of the directors' meeting in the office of the Superintendent of Banks, but the letter was not otherwise materially altered. The above in part appears from a statement by Chief Examiner Wingate on file in the State Banking Department, a copy of which is hereto attached, made a part hereof and marked Exhibit 6.

On January 7, 1924, as Superintendent of Banks I wrote a letter to the Federal Reserve Bank regarding the affairs of the Valley Bank. In this letter I stated that the condition revealed by the examination was such that it was necessary to have a complete understanding with the management and board of directors; that on January 5, 1924, the entire board of directors had met in my office and the conditions disclosed by the examination were fully reviewed with the board for their information; and that the management had presented a tentative program of adjustment in three respects, first, a strict compliance with the law in future activities, second, a reduction of salaries, and third, the immediate liquidation or removal from the bank of illegal

paper and of bad paper as fast as the losses were determined and means provided for its removal. I further stated that the management had been given further time, no specific limit being set, on its earnest promise to proceed actively and effectively on the above program, this being a statement of my understanding with the board of directors. I further stated that as a matter of policy it seemed inadvisable at that time to fix an impairment and levy an assessment, because of the conditions prevailing in the San Joaquin Valley, but that the affairs of the institution would be closely followed and a definite program of improvement insisted upon. This more fully appears from the letter itself, a copy of which is hereto attached, made a part hereof and marked Exhibit 7.

On January 7, 1924, I started on a trip to Washington with my attorney who joined me at Sacramento on January 8, 1924, the Valley Bank situation being left in the hands of the Chief Deputy and Chief Examiner. I did not return from my trip to Washington until February 5, 1924.

On January 8, 1924, the examination letter was signed by the Chief Deputy and mailed to the Valley Bank. This letter to the extent that it went, and upon the information then in the hands of our examiners, contained a true statement of the condition and affairs of the bank. As stated above, however, the actual condition of the Valley Bank was much worse than we at that time supposed, and worse than set out in said letter, the bank being in fact insolvent, and many of the officers and directors being guilty of illegal and irregular acts and practises, as will hereinafter be shown, and which made their management unsafe and impossible. A copy of the examination letter more fully showing these facts is hereto attached, made a part hereof and marked Exhibit 8. Receipt of the examination letter and the fact that they had familiarized themselves with its contents was acknowledged by fourteen of the directors in writing, that is excepting only Director Peterson. This appears from the receipt and acknowledgment itself, a copy of which is hereto attached, made a part hereof and marked Exhibit 9.

On January 12, 1924, Directors Hopper, Graves and Pierce called at the State Banking Department and saw Chief Examiner Wingate and Examiner Bary. These directors advised that Mitchell had recently been reelected President of the Valley Bank at the annual meeting of the stockholders with the understanding that he was to proceed as rapidly as possible to clean up various matters, particularly loans in which he himself was interested, and was then to hold office at the pleasure of the board of directors. It was the unanimous and individual opinion of each of these directors that Mitchell had demonstrated his unfitness for the presidency of the bank. These directors were advised to ascertain all the facts, and were advised that it was their duty at all times to keep informed concerning all the operations of the bank. They expressed their intention of so doing in the future, although admitting that in the past they had been careless in this regard and had permitted themselves to be put off by the officers when seeking information. The directors were told that after the matter of bad paper had been definitely determined by the board in cooperation with the Banking Department, a definite program of

adjustment must be adopted. They were assured that the Department would be disposed to prevent any embarrassment to the reputation of the bank by levying an assessment on the stockholders, if such course were legally possible. No absolute assurances, however, were given in this regard. The above more fully appears from a memorandum of Chief Examiner Wingate, a copy of which is hereto attached, marked Exhibit 10, and made a part hereof.

On January 14, 1924, Cashier Crowell of the Valley Bank and Assistant Cashier Hall called at the State Banking Department to discuss various loans in connection with the last examination of the Valley Bank. Mr. Crowell was informed that the Department expected the management of the bank to determine, in cooperation with its directors, the total bad and doubtful paper which it had to provide for, after which the Department would be willing to discuss the details of some practicable program for dealing with the situation. Mr. Crowell was informed that the first duty of the directors was to require the removal of the illegal paper for which President Mitchell was responsible. Mr. Crowell expressed the opinion that the interests of the bank would be best served by the ultimate retirement of Mitchell from the presidency, but for the immediate future it was considered desirable to retain his services pending the cleaning up of matters for which he was primarily responsible and in which he was financially interested. The above more fully appears from a memorandum by Chief Examiner Wingate, a copy of which is hereto attached and made a part hereof, marked Exhibit 11.

In the early and middle part of January, 1924, the Pacific-Southwest Trust & Savings Bank of Los Angeles was several times approached by one of the directors of the Valley Bank, Mr. P. J. Pierce, to ask if that bank would not be interested in taking over the Valley Bank, saying that everything in the bank was not running smoothly, that there were factions in the bank with reference to the management and control and that they were viewing the coming season with some uneasiness. This matter was taken up with the Pacific-Southwest Trust & Savings Bank also by Mr. George Howard, Vice President of the California Bank, who stated that the bank could be had, that they had been approached and that he would be glad to turn the thing over to the Pacific-Southwest Trust & Savings Bank if it was interested. Various banks in the San Joaquin Valley, being alarmed over the situation, asked the Pacific-Southwest Trust & Savings Bank if they would not be interested in taking the bank over, the matter being discussed among others with Mr. H. C. Carr, President of the First National Bank of Porterville, formerly president of the California Bankers Association. The Anglo Bank of San Francisco asked the same question, through Mr. Wilcox, Vice President and Cashier of that bank. The answer of the Pacific-Southwest Trust & Savings Bank to all of these inquiries was that they were not interested in the purchase of the Valley Bank; that they did not want the Valley Bank because they had representation in the various places of the San Joaquin Valley and in taking over the Valley Bank with its branches they would either duplicate an already adequate representation or take over points where they did not care to operate; that their mergers were made upon a partnership basis, and that there was no one in the personnel

of the Valley Bank attractive to them; that they knew enough about the situation in the Valley Bank to know that it had real problems which they did not desire to carry. This position they maintained until the situation in the Valley Bank became critical, although they supported the Valley Bank to the extent of giving a secured credit of $500,000 in conjunction with equal credits from the Bank of Italy and the Crocker National Bank of San Francisco. The request to take over the bank came from numerous sources and at one time the desire to get rid of the Valley Bank was such that certain brokers, Miller & Crim, approached the Pacific-Southwest Trust & Savings Bank, stating that they had the Valley Bank for sale. This latter offer was made in the middle of February, and after the Valley Bank was taken over by the Pacific-Southwest and Bank of Italy and on March 4, 1924, these brokers through their attorney even claimed they were entitled to the payment of a commission on the purchase price. A copy of this letter of demand is attached hereto, made a part hereof and marked Exhibit 12.

At about the same time as the offer of the Valley Bank to the Pacific-Southwest Trust & Savings Bank, the Valley Bank was offered for sale to the Bank of Italy, the offer being made by President Mitchell at a conference between Mr. Mitchell, Mr. T. F. Saunders, Mr. A. P. Giannini and Mr. J. A. Bacigalupi of the Bank of Italy, in San Francisco. This was January 19, 1924. Mr. Mitchell told these gentlemen representing the Bank of Italy that the Superintendent of Banks was insisting that the Valley Bank write off certain assets, that there was dissension on the board of directors, and that rumors of that dissension were getting on the outside, and that conditions in the Valley Bank were rather critical, that he had made up his mind to get out, but wanted to get out as a result of the sale and consequently offered the bank to the Bank of Italy. On behalf of the Bank of Italy, Mr. Giannini told Mr. Mitchell that the Bank of Italy already had two offices in Fresno and was not interested in any more and that he was not interested in the purchase of the bank. Upon Mr. Mitchell's request that he defer judgment, Mr. Giannini said that in any event he would not entertain any such proposition until he had first seen what there was and what the condition of the institution was. Mr. Mitchell said that something had to be done and, if the result of the examination did not satisfy the Bank of Italy, asked whether they would agree to lend the bank a million dollars, to which Mr. Giannini replied that that also would depend upon the condition of the bank. It was arranged that Mr. W. H. Snyder, Chief Examiner of the Bank of Italy, should accompany Mr. Mitchell and Mr. Saunders to Fresno to make the examination. Mr. Snyder made a three-day examination in conjunction with Mr. A. S. Hays, Vice President of the Bank of Italy at Fresno. Upon Mr. Snyder's return to San Francisco, after examining the paper of the Valley Bank he reported that he had found three million dollars in bad and doubtful paper, and that in his estimation there would be a loss of $1,500,000, or $1,600,000 or thereabouts. Some of the above facts are shown by telegrams between Mr. W. H. (Bill) Snyder and Mr. Giannini under date of January 22d and January 23d, copies of which are hereto attached, made a part hereof and marked Exhibits 13, 13a and 13b. Mr. Giannini had received

information from Chief Deputy Janas that the losses amounted to about $275,000. This was the sum which had been referred to in the examination letter, based on information at hand at the time of the examination. The telegrams show that Mr. Snyder upon investigation found the losses to be several times that amount, and upon the basis of Snyder's report, the Bank of Italy refused either to make the requested loan or to purchase the Valley Bank.

Sometime about the middle of January, 1924, Mr. H. C. Carr, of the First National Bank of Porterville, and at that time President of the California Bankers Association, examined the assets of the Valley Bank with particular reference to their ability to give acceptable collateral to the Crocker National Bank for money borrowed from the Crocker National Bank by the Valley Bank. As a result of this examination, Mr. Carr was convinced that the Valley Bank was in a very dangerous condition, that there were losses of at least a million dollars in the Valley Bank, and that, unless accorded very substantial and immediate support, it would have to close its doors. Mr. Carr discussed the subject of his examination of the Valley Bank with Mr. Stern of the Pacific-Southwest Trust & Savings Bank, and urged that the latter bank should loan money to or take over the Valley Bank. Mr. Carr stated at that time that he was interested in the matter as a local banker in the San Joaquin Valley, because in the event that the Valley Bank with its eight or nine branches in the valley closed its doors, nothing could save the valley from a tremendous disaster, and that other banks would of necessity be caught in the same disaster. Mr. Carr further stated that his interest was also as President of the California Bankers Association, and as such he was interested in averting a financial catastrophe anywhere in the state.

On January 23, 1924, during my absence in the east, Mr. J. J. Graves, a director and later President of the Valley Bank, accompanied by Mr. Fenstermacher, secretary, attorney and director of the Valley Bank, called on the Chief Deputy at the offices of the State Banking Department and stated that some of the directors were not cooperating in efforts to correct conditions in the bank. They were informed by the Chief Deputy that the Department would be forced to take drastic steps in handling the situation if it appeared that any of the directors were breaking faith with it, as the Superintendent of Banks realized the seriousness of the situation and had, against his better judgment and on the representations by the directors themselves, given them on certain definite promises more time than they had asked for in which to correct the condition within their bank. Mr. Graves stated that the Bank of Italy did not want the bank. It was also learned at that time that Mr. Mitchell had tried to borrow a million dollars from the Bank of Italy, but the loan had not been made.

On January 24, 1924, at Worcester, Massachusetts, I received from the Chief Deputy a telegram containing a report, which was erroneous, that the Pacific-Southwest Trust & Savings Bank was negotiating for the purchase of the Valley Bank, the telegram stating that this adjustment was not desirable in view of the conditions. The telegram reported that Mitchell was reported to be attempting to deliver control to Henderson of Sacramento; also that the Bank of Italy was willing to take over the Valley Bank if necessary. The telegram further

stated that Mitchell had stated flatly that he was unable to take out his loans and also that he was talking freely on the outside. I was informed by the Chief Deputy that he would instruct the directors to remove Mitchell's obligations from the bank and would oppose a sale excepting in extreme necessity and then only to an institution able to carry the load. This appears from the telegram itself, a copy of which is hereto attached and made a part hereof, marked Exhibit 14. In reply to this telegram and on January 24, 1924, I wired the Chief Deputy that the Henderson control of the bank was impossible and further stated that the Valley Bank itself was in the best position to handle its affairs. I ordered the Chief Deputy not to crowd Mitchell's paper to the point that would bring on a crisis and that he and the Chief Examiner should use their best judgment and that the result would be satisfactory; that I would return immediately if he considered it necessary. This appears from the telegram itself, a copy of which is hereto attached and made a part hereof, marked Exhibit 15.

On or about January 24, 1924, the management of the Valley Bank informed the Department that they had decided to try and procure a competent banking man to replace Mitchell, the President. Mr. H. C. Carr of Porterville, President of the California Bankers Association, was discussed, and Mr. Carr called at the Department and discussed the matter with the Chief Deputy.

On January 24, 1924, the Chief Deputy called Mr. Sargent, the Assistant Federal Reserve Agent, on the phone, and asked him what steps the Federal Reserve Bank were prepared to take in order to save the Valley Bank. The reply was that they did not know what they would do, if anything; that their examination had not given them any idea as to what steps could be taken to assist the Valley Bank to remain open.

Up to this time, no change for the better had been made in regard to the conditions within the Valley Bank, but the bank had in the meantime been fast losing ground. On January 24, 1924, an open run on the Valley Bank was checked. During all this time, however, a silent clearing house run had been going on, the Valley Bank having lost nearly $700,000 in aggregate individual deposits.

On January 30, 1924, some of the directors of the Valley Bank called at the State Banking Department and stated that they must have a new man at the head of their institution in place of Mr. Mitchell, because none of the banks, all of them having been approached in San Francisco and Los Angeles, would loan any money to the institution as long as Mitchell remained at the head of the bank. The Crocker National Bank, the Bank of Italy and the Federal Reserve Bank all took the same attitude. The Crocker National Bank had already loaned the Valley Bank a considerable sum of money. About January 30, 1924, Mr. J. J. Fagan of the Crocker National Bank met Mr. J. E. Fickett on the street in San Francisco. Mr. Fickett had just returned from Utah. Mr. Fagan inquired whether Mr. Fickett would be interested in assuming the management of the Valley Bank, if it were offered to him, and finally prevailed upon Mr. Fickett to consider the matter. Mr. Fickett then called at the State Banking Department and saw Chief Deputy Janas and talked with him at length about the matter. Mr. Fickett also called upon the Chief Examiner,

Mr. Wingate, and interviewed him regarding the affairs of the Valley Bank, stating that he had under consideration the possibility of accepting the management of the bank, that the proposition had been put up to him by Mr. Fagan and that he had the assurance of Mr. Fagan on behalf of the Crocker National Bank of such additional financing for the Valley Bank as might be necessary to carry it on in the event that he, Mr. Fickett, would assume the management of its affairs. Mr. Fickett on the same day saw Mr. J. J. Graves, director of the Valley Bank and later its President, and made arrangements to go to Fresno with him to make further investigation. Mr. Fickett had been informed by the Chief Examiner that the State Banking Department would approve his selection by the Valley Bank as its manager and would do everything in its power to cooperate with him in endeavoring to reestablish the affairs of the Valley Bank on a sound basis. Mr. Fickett was told by the Chief Deputy that the only interest of the Department was in securing a competent banking man to direct the activities of the institution during the present crisis, and that he would have to make his arrangments with the directors themselves. This Mr. Fickett did, making his arrangements through Director J. J. Graves of the Valley Bank, later its president.

On February 1, 1924, a number of the directors of Valley Bank called at the State Banking Department and had a conference with Chief Examiner Wingate and Chief Deputy Janas, stating that they had met Mr. Fickett and were favorable to him, and that they had decided to elect J. J. Graves as President of the Valley Bank in place of Mitchell. The directors who called had for several days been endeavoring to get the Department to designate someone for them to take the presidency of the bank, but were informed that the Department would not select any man for them, but that they must choose a man for themselves. The result of their choice was the selection of Mr. J. J. Graves, a capitalist of San Francisco and Fresno of considerable means.

Mr. Fickett later called at the Department and informed the Chief Examiner that he had concluded to go to Fresno for the purpose of going over the paper and it was arranged that Examiner Barth should be present to assist in a review of the paper. On Sunday morning, February 3, 1924, Examiner Barth arrived in Fresno and met Mr. Fickett and Director Graves and sat with Mr. Fickett during his examination of the commercial loans at the head office in the presence of Director Graves, Cashier Crowell and Assistant Cashier Hall. This examination commenced at 8 o'clock in the morning and was completed at 10 or 11 o'clock at night. The following day, February 4, 1924, Examiner Barth sat with Mr. Fickett during his examination of the commercial loans at the Sanger Branch, commencing at 8 o'clock in the morning in the presence of Directors Graves and Pierce and the manager and assistant manager of the Sanger Branch. That afternoon Mr. Fickett examined the commercial loans at the Reedley Branch and that evening he examined the loans at the West Fresno Branch. This examination, as appears from the very statement of the matter, was incomplete, Mr. Fickett having not even seen some of the branches. On or about February 1, 1924, Chief Examiner Wingate accompanied Chief Deputy Janas to the Crocker National Bank where

they interviewed Mr. Fagan and Mr. McCarger, who agreed on behalf of the bank to furnish additional credit to the Valley Bank, contingent on the bank securing a satisfactory management, and provided the Bank of Italy and the Pacific-Southwest Trust & Savings Bank would give like credit. The Chief Deputy called on Mr. Giannini of the Bank of Italy. The Crocker Bank and Bank of Italy agreed to give a secured credit of $600,000 each, provided the Pacific-Southwest Trust & Savings Bank would do likewise. This the latter bank agreed to do. Many of the above facts are also shown by the memorandum of Chief Examiner Wingate, a copy of which is attached hereto and made a part hereof, marked Exhibit 16.

On February 4, 1924, the Chief Deputy called Mr. Graves and Mr. Fickett at the Reedley Branch, where they were examining the paper of the Valley Bank. They stated that they thought they would be able to handle the situation. Mr. Fickett returned to San Francisco and told Chief Examiner Wingate that it appeared to him there were about $600,000 of known losses, and that he would try the job and see if he could keep the bank open on condition he could get sufficient credit to enable the bank to go through the harvest season. Mr. Fickett's plan was to cut out the useless expense, stop the run on the bank, if possible, and get the bank in condition by means of assessments on the stock to repair the capital of the bank. Mr. Fickett was so busily occupied, however, in getting together notes to discount to obtain money with which to pay depositors who were withdrawing their deposits that he never succeeded in putting any of his plans into operation beyond cutting the expenses of the operation of the bank.

On February 5, 1924, Mr. James M. Oliver, attorney for the State Banking Department, returned to San Francisco from his trip to Washington. On that day Mr. Mitchell, President of the Valley Bank, had a conference with Mr. Oliver in his office concerning the affairs of the Valley Bank. Following this conference, Mr. Mitchell and his confidential assistant, Mr. T. F. Saunders, asked for and had an interview with Chief Examiner Wingate and Examiner Bary. Mr. Mitchell gave a rambling and somewhat contradictory report of the alleged progress in adjusting the affairs of the Valley Bank, claiming that practically all the the matters which were found subject to criticism in the examination had been put over by other members of the management and finance committee during his absence in the Orient. Mr. Saunders demanded to know whether or not the Department had determined upon a change of policy from that enunciated at the meeting of the board of directors held at the office of the State Banking Department on January 5th, to which the reply was made that any change of policy was entirely a matter for the personal discretion of the Superintendent of Banks. The Chief Examiner said that the Department had knowledge of the critical reserve position of the Valley Bank and of the fact that there was a lack of harmony among the directors, and further that the credit of the bank had been depreciated almost to the vanishing point. Mr. Mitchell admitted that the reserve position was critical. Mr. Mitchell further stated that he had endeavored to make credit arrangements with the Crocker National Bank, but nothing definite had been done except that a brief examination of their paper had been made on Sunday, February 3d, by J. E.

Fickett. The Chief Examiner informed Mr. Mitchell and Mr. Saunders that the possibilities of the situation as then presented involved a necessity for the Department to change its policy in the event that the safety of the bank might require it. Mr. Mitchell did not seem to appreciate the significance of this statement. Mr. Mitchell and Mr. Saunders both referred to the lack of cooperation on the part of the board of directors, intimating that the majority of the board were then against him. Both these gentlemen blamed Cashier Crowell particularly and were very free in their charges of bad faith and alleged loose talk on the part of the other directors. The Chief Examiner said that he had knowledge of the coming meeting of the board of directors and stated that he had personally received no instruction to be there, but that in the event the Superintendent of Banks instructed him to go to Fresno, he would be present at the meeting. The above more fully appears from a memorandum by Chief Examiner Wingate and Examiner Bary under date of February 5, 1924, a copy of which is hereto attached, made a part hereof and marked Exhibit 17.

On February 5, 1924, the Chief Deputy met me in Los Angeles upon my return from my trip to Washington. The Chief Deputy advised me as to what had been done with reference to the Valley Bank and of the new matters which had arisen. On February 6, 1924, I left for Fresno with the Chief Deputy to attend a meeting of the board of directors which was to be held on February 7, 1924, that being the date of the regular directors' meeting.

On the morning of February 7, 1924, in Fresno, I went to Mr. E. J. Fenstermacher's office. A committee consisting of several members of the board of directors of the Valley Bank was there present, including Mr. Graves and Mr. Pierce. The directors present discussed the situation, and while the discussion was going on they discussed the advisability of Mr. Mitchell resigning. Mr. Mitchell himself came into the meeting. I discussed the situation with him. Mr. Mitchell signified a willingness to resign but asked to be retained as chairman of the board of directors of the bank. I told Mr. Mitchell that for the purpose of not disturbing the business of that institution I would not object to that personally, provided he was only a nominal head and had nothing whatever to do with the financial conduct of the bank. I then stated to the committee of the board of directors what I had said to Mr. Mitchell and every director there took the stand that Mr. Mitchell could not remain in any capacity. It was at this meeting that I first met Mr. Fickett who had been brought to Fresno by the directors. Mr. Fickett also stated that if Mr. Mitchell remained in the bank in any capacity, he, Fickett, would not be interested in taking charge of the bank or proceeding further in the administration of the bank's affairs. At a meeting of the board of directors, about 2 o'clock in the afternoon, Mr. Mitchell proceeded to take his position at the head of the directors' table for the purpose of conducting the meeting. I then stated to him that it was my duty as Superintendent of Banks to demand his resignation as President of the Valley Bank, and that I would also demand his resignation as director; that his resignation as director would be held by me and acted upon at our discretion, but that his resignation as president

would be accepted immediately. The board of directors then removed Mr. Mitchell as president of the bank and elected J. J. Graves to succeed him. Mr. Fickett was elected executive vice president. The directors refused to permit Mr. Mitchell to remain as chairman of the board, although I had suggested that this be done in order that his resignation might not unnecessarily alarm the banking public.

The Valley Bank later entered into an agreement with Mr. Fickett for his employment by the Valley Bank, the agreement being drawn by the attorney for the Valley Bank, Mr. E. J. Fenstermacher. The resolution employing Mr. Fickett recited that, "Whereas, the Valley Bank finds itself at present to be in need of special assistance, and whereas, it is desired by the board of directors of the Valley Bank that J. E. Fickett be employed as executive vice president of the Valley Bank, or in some other senior capacity that he might be employed by said corporation." A copy of the resolution and the agreement between the Valley Bank and J. E. Fickett is attached hereto and made a part hereof, marked Exhibit 18.

Upon assuming his position as manager of the Valley Bank, Mr. Fickett was forced to draw immediately upon the Bank of Italy for $100,000, in order to keep up the cash reserves of the bank. During the entire period there had been a continuous silent run in progress, the loss in aggregate individual deposits from January 1 to February 7, 1924, being approximately $950,000. The continuous drain on the deposits of the Valley Bank had not abated and there were incipient runs on the bank. The reserves of the bank had been sadly depleted and at times were deficient by $190,000 and even over $200,000. In spite of the utmost that Mr. Fickett could do, the situation grew steadily worse and on February 20, 1924, Hon. J. U. Calkins, the Governor of the Federal Reserve Bank, called at the office of the Superintendent of Banks and in conversation with me inquired as to the progress of the affairs of the Valley Bank, and was advised that the situation was becoming quite tense. Mr. Calkins then stated that the Federal Reserve Bank had gone as far as it was possible for it to go in advancing credit to the Valley Bank, and further stated that it was a matter for the State Banking Department of California to handle, that "it was its baby and was on its doorstep." That night I left for Fresno to call a meeting of the Clearing House there to see what could be done to allay the uneasy feeling which was developing in Fresno concerning the Valley Bank.

On Thursday, February 21, 1924, I asked that a meeting of the Clearing House of Fresno be called, which meeting was held early that morning. At this meeting we discussed the condition in which the Valley Bank found itself on that date as a result of continuous withdrawals of deposits and discussed the feeling of the public as to the condition of the Valley Bank, it being stated to me that the matter had even become the subject of discussion on the streets. It was agreed at this meeting that all campaigns by other banks for new accounts should immediately be called off but no conclusion was reached as to the best course to be pursued by the Clearing House or by the Superintendent of Banks, and no decision was reached as to the advisability of a public statement by either, it being the viewpoint of those present that such a statement might have the effect of

aggravating, rather than allaying, the uneasiness of the public. The matter was left open for a possible further discussion on the following Monday, February 25th.

On February 21, 1924, a little later in the day, I discussed in detail the gravity of the situation with Mr. Fickett, the executive Vice President of the Valley Bank. On February 21, 1924, the reserves of the Valley Bank were deficient by $234,000. On account of the increasing seriousness of the situation, and in the exercise of the sound discretion vested in me by the law for the protection of the depositors in state banks, I concluded to call upon the Bank of Italy and the Pacific-Southwest Trust & Savings Bank, the two largest banks in the state, to inquire what assistance could be expected from them should the condition become acute. Not wishing to telephone from Fresno concerning a local matter of such gravity, I was driven to Fowler by Mr. Fickett and there telephoned to Mr. Giannini of the Bank of Italy who was in Los Angeles. Mr. Giannini stated that he had called upon Mr. Stern in Los Angeles that day concerning the alarming condition developing in Fresno, and he advised me that both he and Mr. Stern had been of the same opinion and were wiling to do anything to sustain the situation and prevent a crisis in the San Joaquin Valley; that they did not wish to get under the load but would do so if it was considered necessary. I returned to San Francisco on February 22, 1924, and after a conference with the officers of my Department concluded to ask Mr. Giannini and Mr. Stern to go to Fresno for a meeting to be held on the following Monday. February 25, 1924. On account of the acuteness of the situation of the Valley Bank, on February 23, 1924, it was decided to advance the meeting date one day, upon information from Mr. Fickett that unless something was done immediately the bank would be unable to open the following Monday. On the night of February 23, 1924, therefore, I left for Fresno with my attorney.

On the morning of Sunday, February 24, 1924, a conference was held between representatives of the Bank of Italy, the Pacific-Southwest Trust & Savings Bank and the State Banking Department. For the State Banking Department there were present myself and my attorney. Representing the Bank of Italy there were present Mr. A. P. Giannini, President of the Bank of Italy, Mr. A. S. Hays, Fresno Vice President of the Bank of Italy, and Mr. W. H. Snyder, its Chief Examiner. For the Pacific-Southwest Trust & Savings Bank there were present Mr. Charles F. Stern, its Executive Vice President, and Mr. W. A. Sutherland, the Fresno managing director of the Pacific-Southwest Trust & Savings Bank.

At this conference various suggestions were made as to the method of handling the situation which had developed, it being evident that one of several courses must be determined upon: First, either an assessment must be levied at once to repair the capital of the bank; second, the Superintendent of Banks would be compelled to take charge of the bank for liquidation purposes; or, third, the bank must be sold to responsible banks able to carry the load or the directors must take the bad paper out of the bank. The directors of the Valley Bank had stated, as above set forth, that an assessment could not be met, and it was becoming increasingly evident that it could not be met in

time to save the bank. The closing of this bank by the Superintendent of Banks would have had a damaging effect upon the community and upon the whole San Joaquin Valley and would probably have had the effect of causing numerous small banks in the valley to close their doors, with consequent great damage to the valley. Sound judgment, therefore, dictated but one course, and that one dependent upon the action of the directors of the Valley Bank and its stockholders. As a result of the serious condition revealed by the examination of the Valley Bank and from my personal observations in Fresno, I had come to the conclusion that such a crisis existed as to render it imperative that some strong institution or institutions step into the situation in order to protect the depositors of the Valley Bank and thus obviate a catastrophe. This opinion I voiced to the representatives of these two banks. In recommending this course of action, I was exercising the discretion vested in me as Superintendent of Banks for the protection of the depositors of the Valley Bank, under the sincere belief that the only course I could pursue in the performance of my duty to the depositors of the Valley Bank was to recommend to the board of directors of the Valley Bank the sale of their institution to some responsible bank or banks which could assume the liability to the depositors. Otherwise, the Valley Bank being guilty of numerous violations of the laws of the state, and it appearing that the bank was conducting its business in an unsafe and unauthorized manner, its capital being impaired, and it being in an unsafe and unsound condition to continue to transact business and it being unsafe and inexpedient for it to continue business, it would have been my duty immediately to take possession and charge of the bank for purposes of liquidation. Although the condition existed which amply warranted and demanded such a course, I did not desire to pursue that course until I had exhausted my discretion in attempting to protect the depositors in some way which would not have the serious effect upon the community which the closing of the bank would have had.

The need for prompt action was further accentuated by the statement of Mr. Fickett, the Manager of the Valley Bank, who was called in to the conference to state his views upon the situation. He stated that the situation was becoming more serious daily and in fact he had reached a point where he felt that he should be relieved of further responsibility for accepting deposits with his then knowledge of the bank's condition. He further stated that the credit extended by the three banks to the Valley Bank had been extended solely for the purpose of taking care of the normal borrowings by customers of the Valley Bank during the cropping season in the belief at that time that a reorganization of the bank and the resignation of Mitchell as President would remedy the situation; that this hope had not been realized, however, and it had actually developed that advances made up to that time by the three banks had been used almost entirely in meeting withdrawals by depositors. Mr. Fickett stated that the condition of the Valley Bank had proved to be much more serious than he believed it to be when he took charge of the bank and gave it as his opinion that an entire resetting of the situation was necessary to save the depositors from loss. I then urged the representatives of the two banks to take over the bank, or if they did not desire to do this, to

suggest some other way out. The representatives of the two banks stated that they did not wish to take over the bank on any terms and suggested that they would cooperate in any efforts which might be made along other lines to save the situation. Mr. Giannini made the suggestion to Mr. Stern that if the Pacific-Southwest Trust & Savings Bank would take over the Valley Bank that the Bank of Italy would stand one-half of any losses which might result in the liquidation of the assets. This offer was declined by Mr. Stern who countered with the same offer, which was likewise declined. Mr. Giannini offered the Pacific-Southwest Trust & Savings Bank the sum of $250,000 if they would take over the situation and relieve the Bank of Italy of the responsibility. This offer was declined by Mr. Stern who countered with a similar offer to the Bank of Italy if they would take over the situation, which offer was likewise declined. The possibility of finding another purchaser for the bank was discussed and it was suggested that efforts along that line be continued. The matter of further extension of credit was also discussed, but in view of the opinion expressed by Mr. Fickett that available collateral in the shape of notes of the Valley Bank had been or would shortly be exhausted, it was concluded that only a very limited further extension of credit could be made. Both banks declined to assume the burden of purchasing the Valley Bank singly, and finally after a long discussion the representatives of the two banks agreed jointly to make an offer to take over the Valley Bank and assume its liability to depositors. That afternoon the representatives of the two banks worked out the details of the offer which they would make to the Valley Bank to purchase its assets and assume its liabilities. The offer was expressed in a letter directed to the Superintendent of Banks and signed by Mr. Stern for the Pacific-Southwest and Mr. Giannini for the Bank of Italy. A copy of this letter is attached hereto, made a part hereof and marked Exhibit 19. A copy of the letter accompanying this offer is attached hereto, made a part hereof and marked Exhibit 20. The two banks at this time entered into a memorandum of agreement between themselves, a copy of which is hereto attached, made a part hereof, marked Exhibit 21.

Both the Bank of Italy and the Pacific-Southwest Trust & Savings Bank being members of the Federal Reserve system, it was considered necessary first to secure the consent of the Federal Reserve Board to the purchase of the Valley Bank, which was also a member of the Federal Reserve system. I therefore caused a telegram to be sent to the Federal Reserve Board at Washington, D. C., in which I stated that serious conditions in the raisin belt threatened several banks of both systems, that the Valley Bank of Fresno in the heart of the San Joaquin Valley would close the following day unless taken over, that the Pacific-Southwest Trust & Savings Bank and Bank of Italy had consented jointly to salvage the Valley Bank upon terms that I considered right and effective, and stated that I must have the consent of the Federal Reserve Board on the following day to give the banks permission to take over and operate branches of the Valley Bank, adding that the banks were willing to do the job but didn't want it. This appears from a copy of the telegram itself, which is hereto

attached, made a part hereof and marked Exhibit 22. I also called Mr. Calkins, Governor of the Federal Reserve Bank at San Francisco, asking him what his attitude would be in reference to the request of the Department to permit the Pacific-Southwest Trust & Savings Bank or the Bank of Italy to take over the Valley Bank. Mr. Calkins was unable to answer the inquiry and was told that a copy of the telegram forwarded to Washington would be presented to him by the Chief Deputy. The requested permission was granted.

On February 25, 1924, with my attorney I attended a special meeting of the board of directors and officers of the Valley Bank. At this meeting the situation was discussed fully. The members of the board were told that there were several courses open to them. First, if the board of directors at that time were able and willing to take out the bad paper in the bank and replace the money therein, they would be permitted to go forward. The board of directors signified their inability to do that. Secondly, they were advised that it would then be necessary to levy an assessment immediately on the stock. The board were unanimous in their decision that this could not be done on account of the condition and general situation in the valley being such that the assessment could not be paid by most of the stockholders. Third, the board were advised that they would be permitted to sell the bank, on the best terms to anybody who was willing to take it over and financially able to carry the burden, and failing in all of these propositions, it would be the duty of the State Banking Department to take charge of the bank on the following day and place it in liquidation. My attorney stated that the Department had no authority in the matter of sale; that its authority was limited solely to one of two things, the levying of an assessment to repair the capital, or the taking over of the bank for the purpose of liquidation, or possibly both of these things, unless the board of directors immediately took such action as was necessary to repair the impairment of capital, or by a sale of the bank remove the necessity for repairing the capital. The question was asked by one or more of the directors if they had to sell, and my attorney replied that they did not have to sell; that the Superintendent of Banks had no power to make them sell, and was not asking them to sell, but that he felt that a sale to responsible banks was not only the best way, but was probably the only way out other than for the Superintendent to take charge of the institution forthwith. Several of the directors raised the point that they did not want to do either, and questioned whether the condition of the bank was such as to make any of these radical moves necessary. One director even asked that they be allowed to continue to run and that the banks offering to purchase put their offer in an optional form to be exercised at any time that it became necessary to close the doors. At this point my attorney said that it was manifest that the directorate was incompetent as a whole to run this or any other banking institution. The very tenor of their questions showed that the directors did not understand the position they were in as directors and officers or that their bank was in. My attorney reminded them that the condition was such that there was not only an undoubted impairment of greater size than the present directorate could handle, but that the directors themselves were responsible for such money as had been misappropriated by the

officers of their bank, and that in the opinion of the Department many illegal misappropriations had been made by the officers of the bank, and that some of the officers and directors had undoubtedly laid themselves liable to criminal prosecution.

It was reported by one of the directors that a run had started in the town from which he came, upon the branch of the Valley Bank located there. It was also asked by some director if better terms could not be obtained. To this either my attorney or myself replied that the Department had no objection if better terms could be obtained, and a committee was appointed for that purpose to interview Mr. Charles F. Stern, representing the Pacific-Southwest Trust & Savings Bank and the Bank of Italy for that purpose. Some negotiations were had between Mr. Stern and this committee for a modification of some of the terms of the proposal, and modification in certain respects was made. The committee reported back to the meeting that Mr. Stern had assured them that he would be glad if they could obtain better terms or any terms from any other responsible parties and offered to furnish money to financially responsible members of the board of directors if they themselves would get under their own institution's burden, and further that he had agreed that if, at any time before the transfer had gone to the point where it was impossible to re-transfer the assets, anyone else could be secured to take the institution over, the purchasing banks would gladly turn the institution over to such other purchaser, dollar for dollar without diminution of assets and without charge. To the proposition of the directors and officers assuming personal responsibility for the bank with the credit offered by Mr. Stern representing the two purchasing banks, there was no response. Mr. Graves, the President, and perhaps the strongest financially of the directors, stated that he did not intend to pledge his personal resources and did not believe that it was possible to get together a sufficiently strong body of stockholders and officers to accomplish that purpose.

During the course of the meeting Director Field made a personal oral offer to take the Monterey Branch, and some discussion was had with reference to this. The view of the representatives of the State Banking Department was that considering the condition of the bank, the Department had no right to permit this to be done, as the Monterey Branch was probably the soundest of all the branches of the Valley Bank, with the possible exception of the Coalinga Branch, and that to dismember the bank at a time when there was an undoubted impairment would be to deprive the general creditors of assets upon which they were entitled to rely, and furthermore it was felt that such a course would be unfair to the purchasing banks who had come in at the request of the Superintendent of Banks against their own desire to save the situation. The Department felt that the purchasing banks were entitled to such good assets as the bank had and that to force said banks to take over the bank after the assets of the best branch had been removed would not only be unfair but would unquestionably block a sale to these banks or any other bank.

Finally, to dispose of the contention on the part of some of the directors that the bank was able to continue in business with a chance of success, and that the offer of purchase should be transformed into an

option, my attorney inquired as to who was in charge of the bank and was informed that Mr. Fickett was the Executive Vice President in charge. At his suggestion, therefore, Mr. Fickett was called into the meeting and asked to give a statement as to the condition of the bank at that time. The reply of Mr. Fickett was to the effect that the bank would not be able to continue in the face of a run for two hours; that he had just returned from Coalinga and some other branch whither he had gone in the hopes of getting more security that would be acceptable to the banks that were supporting the situation in order to obtain more cash; that he had gotten down to the $300 note and that the bottom of the note pouch had been scraped, and that even so the amount was something less than $100,000 that he would be able to use for this purpose; that he felt there was nothing with which to continue business; that he had not been able to use the money advanced by the three banks that were supporting the institution for the purpose for which the money was advanced, and that the continued steady run had so heavily drawn upon the bank's cash and reserves that the purposes for which the loans were intended had been lost sight of and the money had been paid out in withdrawals by the depositors.

After much discussion, and after one or more of the directors had attempted to leave without the meeting accomplishing anything, and it being apparent that the Superintendent of Banks meant to take over the institution in the event that the directors did not intend to definitely dispose of the matter at that time and to correct the unsound condition of their bank, the board of directors of the Valley Bank passed a resolution of sale of the assets of the Valley Bank to the Pacific-Southwest Trust & Savings Bank, the understanding being that the Pacific-Southwest Trust & Savings Bank would then sell a portion of the assets and branches to the Bank of Italy, which would assume a portion of the deposit liability. A copy of this resolution is hereto attached, made a part hereof and marked Exhibit 23. Following this meeting, an announcement of the sale was made to the public by representatives of the Valley Bank and of the two purchasing banks.

On the evening of February 25, 1924, with my attorney, I went to Los Angeles on official business. At the same time Mr. C. J. Carey, an attorney employed by the State Banking Department, was sent to Fresno to assist the parties with the legal phases of the purchase and sale agreements. Mr. Carey was in daily telephonic communication with Mr. Oliver, attorney for the State Banking Department, advising as to progress. Mr. Carey upon his arrival in Fresno on February 26, 1924, consulted with Mr. Fenstermacher, Mr. Graves, representing the Valley Bank as well as Mr. Fickett, the Manager of the Valley Bank, with Mr. Sutherland, representing the Pacific-Southwest Trust & Savings Bank and with Mr. Hays and Mr. Snyder representing the Bank of Italy. After a conference the proposed agreement of purchase and sale was drawn, together with a form of consent to be signed by the stockholders of the Valley Bank. Mr. Graves, President of the Valley Bank left for San Francisco on the night of February 26, 1924, after refusing to sign the documents in their then form. Mr. Fenstermacher, attorney for the Valley Bank, drew a new agreement with the idea of placing it before a special meeeting of the board of directors on February 28th. At the meeting of the board on February 28, 1924, the

agreement was approved and the directors and officers of the Valley Bank set out to obtain the required written consents of two-thirds of the stockholders to the agreement of purchase and sale, the consents being affixed to copies thereof. This work of procuring the consents of stockholders was performed entirely by the directors and officers of the Valley Bank, and not by representatives of either of the two purchasing banks or of the State Banking Department. The consents were given voluntarily and without any misrepresentation or other wrongful influence, to our knowledge. Consents of stockholders holding 6116 shares of the capital stock of the Valley Bank, that is, more than two-thirds of the capital stock, were procured and affixed to the purchase and sale agreement, the consent being in writing and duly acknowledged by the stockholders as provided by section 31 of the Bank Act.

On March 1, 1924, certain changes in the purchase and sale agreement were desired by the representatives of the Pacific-Southwest Trust & Savings Bank for the two purchasing banks, particularly with reference to the reimbursement of the purchasing banks by the Valley Bank for advances made for purposes of liquidation. The representatives of the purchasing bank had a conference with Mr. Chase H. Sayre, Vice President of the Valley Bank, and Mr. E. J. Fenstermacher, attorney and secretary of the Valley Bank. Mr. Sayre on behalf of the Valley Bank urged that it was then too late to make any changes in the purchase and sale agreement, since the agreement and consents were being circulated among the stockholders in various communities at that very moment. Mr. Sayre urged that instead of modifying the agreement and obtaining new consents of stockholders that the Valley Bank be immediately taken over under the agreement already drawn, pledging himself to use every effort personally to get the stockholders together again if necessary for the purpose of ratifying an amendment to the agreement. Mr. Carey of the State Banking Department came into the meeting later and urged that the purchase go forward on the original agreement. The result was that Mr. Stern was called on the phone in Los Angeles and his approval obtained to the signing of the agreement.

The necessary consents to the purchase and sale agreement were obtained on March 1, 1924, upon which date E. J. Fenstermacher as secretary of the Valley Bank certified that the signatures to the consent were the signatures of the owners and holders of 6115 shares of the subscribed, issued and outstanding capital stock of the corporation, being more than two-thirds of the said stock. The purchase and sale agreements were then signed. The purchase and sale agreements and consents of stockholders being in due and regular form, therefore, as Superintendent of Banks of the State of California, I affixed my approval to the purchase and sale agreements and the same became effective.

During this period, the officers of the Valley Bank made several new attempts to sell the bank to other parties. Mr. Graves offered the Valley Bank to the American Bank of San Francisco. Mr. Fenstermacher approached the Anglo Bank in San Francisco with an offer to sell the control of the Valley Bank. The Mercantile Trust Company was also approached. Efforts were made to dispose of the bank to

various Los Angeles parties. An option was given on February 27, 1924, expiring on February 28, 1924, by stockholders representing a large block of stock of the Valley Bank, to wit, about 2400 shares thereof to sell their stock to "a competent banker of Los Angeles." A copy of said option is hereto attched, made a part hereof and marked Exhibit 24. All of these efforts, however, met with no success on account of the financial condition of the Valley Bank.

A copy of the agreement of purchase and sale between Valley Bank and Pacific-Southwest Trust & Savings Bank under date of March 1, 1924, is hereto attached and made a part hereof, marked Exhibit 25. This agreement of purchase and sale includes the consent of stockholders representing more than two-thirds of the subscribed capital stock of the Valley Bank, which consent contains the guarantee of the stockholders to Pacific-Southwest Trust & Savings Bank against loss by reason of the sale. This was in accordance with the offer of the purchasing banks. This guarantee, as a part of the consent, was signed by each consenting stockholder and the guarantee runs to the full extent of their respective liabilities as stockholders of the Valley Bank, that is to say, if the liabilities assumed by the purchasing bank, whether disclosed by the books of the selling bank or undisclosed and developing during the period of liquidation, shall exceed the ultimate liquidating value of the assets transferred, the guaranteeing stockholders will to the full extent of their respective liabilities as stockholders indemnify the purchasing bank against such loss or deficit. During the negotiations for sale, the directors of the Valley Bank obtained as a modification of terms offered by the purchasing banks an enlargement of the period of liquidation from one to three years. As this was in effect a release of the stockholders' liability, the guarantee was substituted therefor, which guarantee as above indicated does not fully protect the purchasing banks from loss. As will be more fully shown hereinafter, the purchasing banks will suffer a considerable loss, and this guarantee was intended to protect them, insofar as possible, against such loss. Inasmuch as the purchase and sale agreements were signed by only a little over two-thirds of the stockholders, the purchasing banks are protected by the guarantee only against that proportion of the loss.

As a part of the same transaction, and under date of March 3, 1924, the Pacific-Southwest Trust & Savings Bank and Bank of Italy entered into an agreement of purchase and sale whereby certain of the assets acquired from Valley Bank and certain of the branches were transferred to the Bank of Italy, the agreement providing for the assumption by the Bank of Italy of one-half of the deposit liability, and which agreement also provided for a sharing of the loss equally by the two purchasing banks. A copy of this purchase and sale agreement is attached hereto, made a part hereof and marked Exhibit 26.

Some of the above set out facts are also shown by the sworn statement of the then Chief Deputy, Sigmund J. Janas. A copy of the said sworn statement is attached hereto, made a part hereof, and marked Exhibit 27.

This completes the chronological history of the events leading up to the sale of the Valley Bank.

II.

As evidence of the acutely serious situation which confronted the office of the Superintendent of Banks in the Valley Bank matter, I will first set out many of the irregularities and illegalities which existed in the Valley Bank at the beginning of and during the period leading up to the sale of the Valley Bank on March 1, 1924, after which I will show the condition of the Valley Bank at that time.

The irregularities and illegalities in many instances consist of numerous violations of the Bank Act, and of the Penal Code, by officers and directors of the Valley Bank. In addition to the matters specifically set forth hereinafter there are numerous transactions unquestionably irregular and illegal which have not been fully investigated. From a consideration of the matters set forth hereinafter it will appear that it was true as a matter of law that the entire management was guilty of illegal and irregular acts involving every director of the bank. General reference may be made to the provisions of section 561*b* of the Penal Code that every director of a bank who wilfully does an act as such director which is expressly forbidden by law or wilfully omits to perform any duty imposed upon him as such director by law is guilty of a misdemeanor. Likewise under section 561*d* of the Penal Code any director concurring in any vote or act of directors by which it was intended to make a loan or discount to any director of the bank or upon paper on which any such director was liable or responsible was guilty of a misdemeanor. The offense is extended to all directors not present and not dissenting by section 570 of the Penal Code.

It may further be observed that section 3 of article XII of the state constitution expressly fixes a liability upon each director of a corporation jointly and severally to creditors and stockholders for all moneys embezzled or misappropriated by officers during the term of office of such director.

For convenience I will list and consider the various transactions numerically.

1. Financing of Mitchell and Virden Lumber Company by the Valley Bank. The Mitchell and Virden Lumber Company, a Delaware corporation, was formed in the latter part of October, 1922, for the purpose of acquiring and operating certain timber and gravel properties in Sonoma County, which belonged to W. D. Mitchell, President of the Valley Bank, and his sister-in-law, Sallie A. Mitchell, they having taken over the property when the estate of J. Ed Mitchell, deceased, brother of W. D. Mitchell, defaulted on a contract to purchase it. This property consisted of approximately 3500 acres in Sonoma County, the property being subject to a purchase money mortgage of approximately $70,000. In November, 1922, W. D. Mitchell and Sallie A. Mitchell entered into an agreement with Ivan C. McIndoo, Vice President of the Valley Bank, J. C. Ferger, one of the stockholders of the Valley Bank, W. D. Mitchell, President of the Valley Bank, and J. M. Bruere, a heavy borrower at the Sanger Branch of the Valley Bank, to sell the said properties for a consideration of $200,000, of which $50,000 was acknowledged to have been paid in cash and assumption of indebtedness. These parties then entered into a similar agreement with Mitchell and Virden Lumber Company by which the corporation

was to issue to them 5000 shares of preferred stock and 37,500 shares of common stock of Mitchell and Virden Lumber Company, and by which the corporation was to assume an indebtedness or liability of $150,000, which presumably was the balance due on the W. D. and Sallie A. Mitchell contract. The corporation also agreed to purchase from W. D. Mitchell inventories of merchandise and stock in a store and lumber in yard for $55,000. This agreement was altered on February 14, 1923, to provide that the corporation should issue to the said parties 9975 shares of preferred capital stock (par value $10 per share) and 25,000 shares of common stock (no par or nominal value), and should assume the payment or satisfaction of $100,000 indebtedness or liability. W. D. Mitchell and associates, therefore, received preferred stock amounting to 9975 shares of a par value of $10 per share and 25,000 shares of common stock. The corporation sold about $128,430 in stock, selling the stock for $30 per unit of two shares of preferred and one of common. This stock was sold through S. E. Whiting, a stock broker of San Francisco. His activities will be further considered in connection with the National Bank of Bakersfield transaction hereinafter.

President W. D. Mitchell of the Valley Bank and Vice President Ivan C. McIndoo and their associates, therefore, held about two-thirds of the issued preferred stock of the company and about 80 per cent of the common stock of the company. Loans were made to the Mitchell and Virden Lumber Company aggregating $15,000 by the Valley Bank, on the statement of the company showing quick assets of $102,000 and current liabilities of $91,000 and claiming a net worth of $1,111,000 which consisted, according to the statement, of 5500 acres of timber land and showing $100,000 due the J. E. Mitchell Estate, of which W. D. Mitchell was executor, and which had formerly held a contract to purchase the Sonoma County property. The statement showed $53,976 accounts payable to W. D. Mitchell.

The Commissioner of Corporations gave permission to the company to issue and sell stock "in exchange for not less than forty (40) per cent cash and the balance evidenced by a note or notes." Many subscriptions were evidenced entirely by notes, no cash being paid. This was done in violation of the Corporate Securities Act and such subscriptions were therefore null and void.

Notes taken, in partial settlement for $128,430 in subscriptions, aggregated $95,290. Of these the Valley Bank on the approval of President Mitchell discounted and retained $44,422 of which $36,260 are still unpaid and are of little or no value. These loans, many of which were endorsed without limitation by the Mitchell and Virden Lumber Company, were allowed by the bank to pass the due date without protest for nonpayment, thereby releasing the Mitchell and Virden Lumber Company from their guarantee.

Inasmuch as President Mitchell and Vice President McIndoo of the Valley Bank were interested in the Mitchell and Virden Lumber Company as above set forth, the transactions are subject to the penal provisions of section 83 of the Bank Act and were also in violation of section 35 of the Bank Act as to the direct loan of $15,000 and the discounts agregating $44,422.

2. Acquisition of stock in National Bank of Bakersfield. The transaction with the National Bank of Bakersfield and the purchases of stock of National Bank of Bakersfield represent some of the most vicious of the manipulations by officers of the Valley Bank. On February 21, 1923, an agreement was made by and between C. I. Dennis and F. H. Hall. Dennis was trust officer and in charge of the bond department of the Valley Bank, while Hall was the President of the National Bank of Bakersfield. Hall agreed to sell and Dennis agreed to buy 345 shares of the capital stock of the National Bank of Bakersfield for $110 per share, or $37,950. This stock was to be delivered upon receipt of the purchase price, but no specific date was set for delivery of the stock. It was further agreed that the vendors might take, in lieu of cash, an equivalent amount in stock of the Valley Bank at $150 per share. Similar agreements were signed by other stockholders of the National Bank of Bakersfield, to wit, by L. P. Keester, E. D. Burge, Peter Kosel, Nel P. Smith, F. J. Galtes, Rowan S. Hall, C. H. Franey and J. U. Crosland, for an aggregate of 698 shares of the stock of the National Bank of Bakersfield. On February 23, 1923, an announcement appeared in the Fresno *Bee* that the Bakersfield bank had been sold to Fresno men and that the Kern County institution was the latest addition to the Valley Bank chain. Under such headlines, the announcement was made by W. D. Mitchell, President of the Valley Bank, that options for more than 70 per cent of the stock of National Bank of Bakersfield had been obtained by Fresno capitalists, and that the exercise of the option would be followed by the addition of the Bakersfield bank to the Valley chain. A similar announcement was carried in the Fresno *Republican* on the same date.

On February 26, 1923, an examination of the National Bank of Bakersfield was made by J. Andres, auditor and assistant cashier of the Valley Bank. His report showed that the National Bank of Bakersfield was in a dangerous and unsafe condition. It is apparent it was at that time hopelessly impaired and actually insolvent. The original draft of Andres' report shows interlineations in his handwriting by which the report was revised to such an extent that the finished product bears little resemblance to the original draft. Even the altered report showed a frozen condition. It is apparent that strong influences had forced Andres to revise his report, probably the influence of officers of the Valley Bank holding options for the greater portion of the stock of the National Bank of Bakersfield. The exact reasons why Andres colored his finished report can never be known, owing to his suicide on December 26, 1923, when the condition of the Valley Bank was gradually becoming known to the State Banking Department.

The officers of the Valley Bank who had acquired control of the stock in the National Bank of Bakersfield sought to dispose of portions of it and actually did sell 140 shares through S. E. Whiting, their stock broker, to R. A. Barnett, a wealthy sheep man, at a price of $110 a share, or $15,400, offering as an inducement to make him a director and later vice president. This $15,400 was deposited to the account of S. E. Whiting on Mach 17, 1923. The officers of the Valley Bank, therefore, were left with some 206 shares (none of which stood in their own names) of stock of the National Bank of Bakersfield, which they were unable to dispose of. Prior to the original agreement of

purchase of stock of National Bank of Bakersfield, the Valley Bank loaned to S. E. Whiting on his notes on February 1, 1923, $12,950 and on February 10, 1923, $16,000.

Early in March, 1923, a new option to purchase stock was asked, and F. H. Hall of the National Bank of Bakersfield is reported to have agreed to give it provided the officers of the Valley Bank would take up a $35,000 loan of his held by the Commercial National Bank of Los Angeles, and secured by stock of the National Bank of Bakersfield, and would also agree to take over the Kern Cotton Gin Company loan of $8,000, then carried by the National Bank of Bakersfield, the Gin Company being controlled by Hall. Mitchell, the President of the Valley Bank, is reported to have verbally agreed to these things. On March 16, 1923, a second agreement was drawn up for the purchase of Hall's stock between Hall and the Valley Bank of Fresno by W. D. Mitchell, for a consideration of $1, Hall agreeing to sell to the Valley Bank 345 shares of the National Bank of Bakersfield and any additional shares that he might acquire at any time on or before January 1, 1924, at book value or the equivalent in book value in the Valley Bank of Fresno. F. H. Hall at this time had 365 shares of stock standing in his name, of which 345 belonged to him, all of which was pledged as collateral for his note of $35,000 held by the Commercial National Bank of Los Angeles. The remaining 20 shares standing in Hall's name belonged to the cashier of the National Bank of Bakersfield, J. K. Russell.

The making of this agreement by W. D. Mitchell as agent for the Valley Bank was unauthorized and never approved, ratified or confirmed by the stockholders, directors or executive committee of the Valley Bank. As an agreement of the bank it was in direct violation of section 37 of the Bank Act which prohibits a bank from purchasing the stock of any corporation.

At a special meeting of the stockholders of the Valley Bank held on March 16, 1923, a resolution was passed authorizing and empowering the board of directors to purchase the assets and assume the liabilities of the National Bank of Bakersfield for a cash consideration left blank. No attempt seems to have been made by the stockholders or directors of the Valley Bank to purchase the assets of the National Bank of Bakersfield on behalf of the Valley Bank in the legally permitted manner.

On March 16, 1923, S. E. Whiting wrote to W. D. Mitchell, President of the Valley Bank, reporting the sale of 140 shares of the stock of National Bank of Bakersfield to R. A. Barnett at $110 per share. The letter also reported that Whiting had purchased from E. D. Burge for $19,250, 175 shares of the stock of the National Bank of Bakersfield, which stock was enclosed to Mitchell. In this letter Whiting stated that the directors' meeting of the National Bank of Bakersfield would be held on the following Tuesday and that Mr. Hall wanted Mitchell there to arrange for the new board of directors, because a number of them would have to retire on account of the sale of their stock. On March 20, 1923, the following new directors were elected: R. A. Barnett, C. L. Taylor, W. H. Say and Ivan McIndoo, each of whom on that date was the holder of record of 10 shares of stock. W. H. Say and Ivan McIndoo were stockholders, directors, officers and mem-

bers of the Executive Committee of the Valley Bank of Fresno at that time. No consideration was passed for the stock issued to Taylor and he acted as a dummy director for W. D. Mitchell et al, the stock in his name being owned by them.

Under date of March 21, 1923, a dummy loan of $19,250 was made to S. E. Whiting on a note signed by him to the Valley Bank, said amount being for the purchase of the 175 shares of stock from E. D. Burge. Whiting has repudiated his personal liability on this note and both W. D. Mitchell and W. H Say have testified that Whiting was acting as agent and under instructions from the Valley Bank. Suit has been brought for the balance due on this note against W. D. Mitchell. If the suit against Mitchell is not successful, it will appear that the Valley Bank was the owner of this stock in absolute violation of the Bank Act of the State of California. If the suit is successful and Mitchell loses, it will establish ownership of this 175 shares of stock by him, and the dummy loan to Whiting and all subsequent loans to the National Bank of Bakersfield will be proven to be for the personal benefit of W. D. Mitchell and consequently a felony under section 39 of the Bank Act as well as under section 83. In either event, the transaction constituted a violation of the Bank Act.

The setting up of the entry of this loan to S. E. Whiting was a false entry upon the books of the Valley Bank, made with intent to deceive, which is a felony under section 563*a* of the Penal Code. The called reports made subsequent to this loan on April 4, 1923, June 30, 1923, and others, concealed this unlawful purchase of stock in violation of section 38 of the Bank Act and secion 563*a* of the Penal Code.

If this stock was stock belonging to the Valley Bank, then all subsequent loans and discounts to and of the National Bank of Bakersfield were illegal and prohibited under section 83 of the Bank Act.

This dummy note of S. E. Whiting was collaterated by the 175 shares of the capital stock of National Bank of Bakersfield. The loan was approved by the executive committee by number only on March 28, 1923, all members of the executive committee being present and all voting affirmatively, to wit: W. D. Mitchell, Chase H. Sayre, W. H. Say, Henry Ross and Ivan C. McIndoo. The loan was approved on April 5, 1923, by number only, by the entire vote of the directors present, Director C. R. Morton only being absent.

On October 15, 1923, $2,200 was credited on the note of S. E. Whiting. President Mitchell had asked the note teller for 20 shares of the stock of National Bank of Bakersfield held by the bank as collateral to the note on September 27, 1923, and the note teller then handed to Mr. Mitchell certificate No. 91 for 20 shares standing in the name of E. D. Burge. The stock was not returned to the bank's files and on October 15, 1923, Mr. Mitchell handed a $2,200 check to the note teller with instructions to apply it on the Whiting note. At $110 per share, the price at which this stock was being traded in at that time, 20 shares of stock would bring $2,200. On October 18, 1923, this certificate was canceled and the 20 shares reissued in the name of R. F. Barnett. On January 25, 1924, the remaining 155 shares were delivered to the Valley Holding Company without consideration, leaving this note to the Valley Bank without security of

any kind. The bank was given a receipt for the stock signed by C. I. Dennis, secretary of the Valley Holding Company. On the same date Cashier Crowell of the Valley Bank forwarded the same stock to the Cashier of the National Bank of Bakersfield with a request for an immediate transfer into the name of the Valley Holding Company, stating that it was imperative that it be in their hands on the following day. The certificate forwarded stood in the name of E. D. Burge.

Under date of April 23, 1923, Cashier E. F. Sims of the National Bank of Bakersfield wrote to Cashier Crowell of the Valley Bank advising him that an examination of the National Bank of Bakersfield had been started on that date by Examiners Machen, Vaughn and Walby, National Bank Examiners. On May 1, 1923, National Bank Examiners Walby, Machen and Vaughn, accompanied by Messrs. Hall, Sims and Barnett of the National Bank of Bakersfield, met with the executive committee of the Valley Bank for a discussion of the condition of the National Bank of Bakersfield. Executive Committeemen McIndoo, Ross, Sayre, and Say were present, President Mitchell being absent. McIndoo and Say were directors of the National Bank of Bakersfield at this time. The National Bank Examiners showed the Executive Committee that there were losses of $106,000, an additional $100,000 of doubtful and undesirable paper, that the bank was practically insolvent, and that an immediate assessment of $100,000 on the stock of the National Bank of Bakersfield was necessary. The National Bank Examiners required these committeemen to protect their illegal investment in the stock of the National Bank of Bakersfield or suffer entire loss of the stock owned by them at that time. The minutes of the Executive Committee meeting of that date state that: "It was decided not to exercise our option to purchase the stock at $110 per share." A resolution was then passed: "To allow the National Bank of Bakersfield $10,000, balance of surplus acount; $10,000 accrued interest on loans and bonds; $15,000 equity in bank premises and $15,000 equity in other real estate owned, totaling $50,000, and to assign without recourse for their benefit, notes aggregating $106,000 that had been set aside by the National Bank Examiners as worthless." A resolution was then passed by the Executive Committee authorizing the purchase of stock of the National Bank of Bakersfield by the Valley Bank at $50 per share, the Valley Bank agreeing to take all such stock that might be offered on or prior to May 4, 1923, and assigning to the stockholders of record of the National Bank of Bakersfield on May 1, 1923, unconditionally the $106,000 of notes listed as losses by the National Bank Examiners. The minutes recite the understanding that 492 shares of National Bank of Bakersfield would be assigned and delivered under this offer of purchase and sale, "In addition to the 175 shares now owned or controlled by the Valley Bank," the latter referring to the stock held with the dummy note of Whiting. A resolution was then passed that all arrangements made relative to the purchase of the stock referred to should be subject to the customary approval of the Federal Reserve Board and the Superintendent of Banks, the purpose being to assume all existing liabilities of the National Bank of Bakersfield as of the close of business May 4, 1923, and then to convert the said bank into a branch of the

Valley Bank. No such approval was asked of the State Banking Department and none could legally have been given or would have been given, approving the purchase of stock of the National Bank of Bakersfield, for the reason that section 37 of the Bank Act expressly prohibits the purchase by a bank of stock of any corporation.

Under date of May 5, 1923, however, Cashier Crowell of the Valley Bank wrote to the State Banking Department asking for formal consent to proceed with the purchase of the assets and liabilities of the National Bank of Bakersfield. The State Banking Department was, of course, entirely ignorant of the condition of the National Bank of Bakersfield at this time. Consequently, a consent was given by the State Banking Department to the Valley Bank to purchase the assets of the National Bank of Bakersfield, but no consent or authority was ever given or could have been given by the State Banking Department to the purchase of stock of the National Bank of Bakersfield. The entire condition was concealed from the State Banking Department by the officers of the Valley Bank with intention to deceive the State Banking Department as to the true condition, for if the true condition had been known, the Valley Bank would have been forbidden to participate in any transaction looking to the purchase of the National Bank of Bakersfield. It does not appear from the records of the Valley Bank that the resolutions passed by the Executive Committee attempting to authorize the purchase of stock, were ever made of record in any way in the minutes of the board of directors, or that the acts of the Executive Committee in this respect were ever presented for ratification and approval by the board of directors of the Valley Bank. Under date of May 11, 1923, Cashier Crowell advised the State Banking Department of a meeting the day before with the Federal Reserve Agent, John Perrin, and in conformity thereto had withdrawn request for permission to take over the National Bank of Bakersfield.

The resolutions passed by the Executive Committee of the Valley Bank on May 1, 1923, called for the purchase of at least 492 shares of stock of the National Bank of Bakersfield in addition to the 175 shares then owned or controlled and it was stated that this stock must be acquired on or before May 4, 1923. The Commercial National Bank of Los Angeles agreed to release the 345 shares held by them as security on F. H. Hall's note of $35,000 upon payment of $50 per share. This 345 shares was accordingly made available and was included in stock aggregating 523 shares which was tendered by National Bank Examiners Machen and Vaughn on May 4, 1923, at $50 per share or $26,150. This block of 523 shares of the National Bank of Bakersfield was transferred on May 4, 1923, to the following persons and in the following amounts, to wit:

Chase Sayre	100 shares
Henry Ross	100 shares
E. J. Fenstermacher	100 shares
Ivan C. McIndoo	100 shares
E. F. Sims	123 shares

Sayre, Ross and McIndoo were members of the Executive Committee and directors of the Valley Bank. McIndoo was Vice President of the Valley Bank, Fenstermacher was a director and secretary of the Valley

Bank. Sims acted as a dummy for Mitchell and others and was at that time an employee of the National Bank of Bakersfield sent there early in 1923 by W. D. Mitchell, W. H. Say and Ivan C. McIndoo to look after their interests. Say and McIndoo each already had ten shares standing in their names. On May 4, 1923, therefore, the directors and officers of the Valley Bank owned 718 shares out of the 1000 shares of the capital stock of the National Bank of Bakersfield. Five of the directors, including both vice presidents and the secretary, had stock standing in their names, and the president, W. D. Mitchell, had full knowledge of the condition, and without doubt a direct personal interest.

On May 4, 1923, a note was signed by E. F. Sims for $26,150 and accepted as a loan in the Valley Bank. This note is admittedly a dummy note, the funds from which were used for the purchase of the 523 shares of stock of the National Bank of Bakersfield referred to above, transferred to the officers and directors of the Valley Bank above named. Of this sum $1,400 was paid to L. P. Keester, $7,500 to J. K. Russell and $17,250 to the Commercial National Bank of Los Angeles. The officers and directors of the bank, knowingly and with intent to defraud, failed to make or cause to be made, full and true entry of this investment and permitted it to go into the books of the bank as a loan to E. F. Sims, which it was not. The loan was approved on May 9, 1923, by the Executive Committee at a meeting at which Directors McIndoo, Sayre and Ross were present, Mitchell and Say absent. McIndoo and Ross were directors of the National Bank of Bakersfield holding 110 and 100 shares of stock, respectively, and Sayre had 100 shares of the stock of the bank standing in his name. On June 7, 1923, the loan was approved by the board of directors. At the directors' meeting all directors were present except W. D. Mitchell, P. J. Pierce, J. J. Graves and M. D. Hopper, who were absent. Approval of the loan received the affirmative vote of all present including Say, McIndoo, Ross, Sayre and Fenstermacher, all of whom were stockholders of the National Bank of Bakersfield. On June 15, 1923, the E. F. Sims loan was renewed for $26,260, being an increase of $110. The new note was dated June 13, 1923, and was approved by the Executive Committee and board of directors. The increase in the amount of the note was made to cover the purchase of an additional share of stock at $110. The new note, accompanied by the one share of stock, was forwarded by letter of June 14, 1923, written by E. F. Sims, Vice President of the National Bank of Bakersfield, to Cashier Crowell of the Valley Bank.

The Sims' dummy note remained as a loan in the assets of the Valley Bank until September 7, 1923, on which date the note, having been renewed and increased to $26,620.60 to cover interest and revenue stamps, was forwarded to the American Bank of San Francisco. On August 30, 1923, Cashier Crowell of the Valley Bank in a letter to E. F. Sims, Vice President of the National Bank of Bakersfield, stated, "At the time we purchased the Hall stock you were good enough to sign a note for $26,260 collaterated by 514 shares. Inasmuch as the State Bank Act prohibits us holding more than a majority of any bank's stock, we have arranged with the American Bank of San Francisco to take your note off our hands. We will receive from them

note in a few days, which we will forward to you to sign and will send stock direct to them from this bank. You can sign the note and send it direct to them and we will return to you the old note duly canceled." The loan at the American Bank of San Francisco was renewed under date of January 28, 1924, for $26,628.60 in the name of the Valley Holding Company. In writing to the Valley Bank under date of January 28, 1924, the American Bank required that the note of the Valley Holding Company be endorsed or guaranteed by W. D. Mitchell, M. K. Crowell, Henry Ross, Ivan McIndoo and H. E. Vogel, accompanied by collateral consisting of the E. F. Sims note and all collateral then attached thereto, also by check covering interest on the Sims note to date. It will be noted that the loan of Sims was always carried as an unsecured note in the ledgers of the Valley Bank, although the collateral referred to was held in one of the regular collateral envelopes of the bank. This was an attempt to conceal a violation of the law in holding the stock.

On May 31, 1923, the board of directors of the National Bank of Bakersfield was made up as follows:

R. F. Barnett	125 shares
E. F. Sims	124 shares
I. C. McIndoo	110 shares
Henry Ross	100 shares
M. K. Crowell	100 shares
H. E. Vogel	100 shares
W. H. Say	10 shares

Directors M. K. Crowell and H. E. Vogel had been elected directors of the National Bank of Bakersfield on May 31, 1923. At this time the stock owned by the Valley Bank group stood on the books of the National Bank of Bakersfield as follows:

E. D. Burge (which had been purchased through S. E. Whiting)	175 shares
Ivan C. McIndoo	100 shares
Henry Ross	100 shares
E. F. Sims	124 shares
H. E. Vogel	100 shares
M. K. Crowell	100 shares
W. H. Say	10 shares
Ivan C. McIndoo	10 shares
C. L. Taylor	10 shares

Under date of June 7, 1923, Cashier Crowell of the Valley Bank asked the National Bank of Bakersfield to transfer stock in that bank as follows:

100 shares standing in the name of Chase Sayre and
100 shares standing in the name of E. J. Fenstermacher,

to be reissued 100 shares in the name of H. E. Vogel and 100 shares in the name of M. K. Crowell. The transfer was made on June 8, 1923. Vogel and Crowell were elected directors of the National Bank of Bakersfield over a week before any stock was issued in their names.

On May 19, 1923, Cashier Crowell of the Valley Bank had written to E. F. Sims of the National Bank of Bakersfield, stating that Messrs.

McIndoo, Say et al, stockholders and directors of the National Bank of Bakersfield, would on Monday or Tuesday of the next week pay in $56,000 in cash to replace the impaired capital of the National Bank of Bakersfield. On the demand of the National Bank Examiners on May 31, 1923, that the capital of the bank be restored, Messrs. Say, Ross and McIndoo acting for the Valley Bank group made a voluntary contribution of $56,214.79 to restore the capital of the National Bank of Bakersfield. These three, who were officers, directors and stockholders of the Valley Bank and of the National Bank of Bakersfield signed a certificate which recited that assets totaling $106,214.79 had been purchased by them from the National Bank of Bakersfield from which they anticipated reimbursement for the amount furnished. The force and effect of this certificate was canceled in a letter to the Comptroller of the Currency under date of August 27, 1923, in the following language:

> We, the undersigned, do hereby certify that the contribution of $56,214.79 made by us individually to the undivided profit account of the National Bank of Bakersfield, Bakersfield, California, on or about June 1, 1923, was voluntary and unconditional and that we in no way consider the National Bank of Bakersfield liable to us for the return of this amount.
>
> Neither do we claim any right, title or interest in those certain assets totaling $106,214.79 eliminated from the assets of the National Bank of Bakersfield, other than our proportionate interests therein as represented by our stock in said bank as of record on May 1, 1923.

The $56,214.79 necessary to make the voluntary contribution to repair the capital of National Bank of Bakersfield was obtained from the Crocker National Bank of San Francisco. A note for this amount was signed by W. H. Say, Henry Ross and Ivan C. McIndoo and was forwarded to the Crocker National Bank in a letter under date of June 2, 1923. Correspondence clearly indicates that R. F. Barnett also was expected to sign this note. Although seventeen shares of stock of the Valley Bank was delivered to him as an inducement he did not sign the $56,214.79 note. Interest on this note was paid by the National Bank of Bakersfield. The note became a loan on June 4, 1923, and on that date Cashier Crowell of the Valley Bank advised E. F. Sims, Vice President of the National Bank of Bakersfield, that credit had been placed to the account of the latter and to proceed with setting it up on the books as well as setting aside the $106,000 worth of notes to be eliminated. The Crocker National Bank still holds this note and has brought suit thereon, making the Valley Bank a co-defendant. The individual defendants have repudiated liability claiming that they signed at the request of the Valley Bank and for its benefit.

Mr. W. D. Mitchell, President of the Valley Bank, although neither an officer, director or stockholder of record of the National Bank of Bakersfield, on August 4, 1923, attended a meeting of the board of directors of the National Bank of Bakersfield and acted as the spokesman for the board of directors in their discussion of the condition of that bank with the National Bank Examiners following an examination of its affairs made under date of August 4, 1923. A further impairment of the capital of National Bank of Bakersfield was shown at this time. Mr. Mitchell stated that it would not be possible to make a voluntary contribution. Vice President Sims of the National Bank of Bakersfield in a letter to Cashier Crowell of the Valley Bank under

date of August 30, 1923, stated that in his opinion the impairment of capital of the National Bank of Bakersfield at that time would run about $25,000.

In addition to the contribution of $56,214.79 made by certain directors on or about June 1, 1923, on January 8, 1924, an assessment of $27,000 was levied on the stock and an additional assessment of $90,000 was levied on November 14, 1924. The Valley Holding Company made an agreement with M. L. Levering for purchase and sale of the stock originally attached to the E. F. Sims note. The balance of 126 shares still undelivered on this contract was sold for nonpayment of assessment on February 24, 1925.

The above set forth facts show the exploitation of the Valley Bank by its principal officers and the diversion of its funds through the execution of dummy notes and other illegal transactions for the purchase of stock in the National Bank of Bakersfield, a bank which was absolutely insolvent and in an unsound, financial condition and known to be so by the officers of the Valley Bank. It further appears that these officers used their standing and position as officers of the Valley Bank for the purpose of securing credit from other banks for the further financing of their transactions with the National Bank of Bakersfield and in the stock of the National Bank of Bakersfield. The money involved amounts to a considerable figure. To this amount, however, must be added a large sum involved in the transaction for the protection of the investments in stock of the National Bank of Bakersfield through loans, bank overdrafts and rediscounts, next hereinafter considered.

3. Loans to and overdrafts and discounts of National Bank of Bakersfield. Despite the fact that the Valley Bank group owned considerable blocks of stock in the National Bank of Bakersfield, which were early increased to an amount representing a control of that bank, the officers and directors of the Valley Bank made large loans to the National Bank of Bakersfield. In view of the interests of the officers and directors of the Valley Bank, if not the Valley Bank itself, these loans were illegally made under the provisions of section 83 of the Bank Act. Section 83, of course, provides that any officer, director, agent or employee of a commercial bank, who knowingly procures a loan from such commercial bank contrary to the provisions of that section, is guilty of a felony.

On March 23, 1923, the Valley Bank made a direct loan of $50,000 to the National Bank of Bakersfield on its certificate of deposit, due May 21, 1923, and removed as such on June 22, 1923. This loan appeared on the books of the Valley Bank two days after the investment in the stock of the Bakersfield bank, which was concealed through the dummy loan to S. E. Whiting, and three days after Ivan C. McIndoo and W. H. Say, Vice Presidents of the Valley Bank, had been elected directors of the National Bank of Bakersfield. As stated, the certificate of deposit was "removed" but the obligation was not paid. Under date of June 6, 1923, E. F. Sims, Vice President of the National Bank of Bakersfield, by letter requested Cashier Crowell of the Valley Bank to return to the National Bank of Bakersfield the $50,000 certifi-

cate of deposit that they might reduce their bills payable to the legal amount, and that the Valley Bank should hold an equal amount of the collateral supporting the obligation as rediscount. On June 22, 1923, the date on which the certificate of deposit was returned to the National Bank of Bakersfield, discounts with unlimited investments of the National Bank of Bakersfield jumped from $25,250 to $72,719.16.

The only attempt to authorize loans to the National Bank of Bakersfield up to this time was a resolution passed by the Executive Committee of the Valley Bank on May 16, 1923. Committeemen W. H. Say, Chase H. Sayre, Ivan C. McIndoo and Henry Ross were present. It was unanimously resolved by the Executive Committee that the Valley Bank discount $25,000 worth of notes for the National Bank of Bakersfield, the said amount to be placed to their credit to be drawn on as required for loans. It will be noted that each one of these committeemen was a stockholder in the National Bank of Bakersfield and was disqualified from voting on any matters relating to the National Bank of Bakersfield. Although the Valley Bank on June 22, 1923, accepted $72,719.16 worth of rediscounts, bearing the unlimited endorsement of the National Bank of Bakersfield, no other than the above approval for this loan was attempted until August 2, 1923.

On July 9, 1923, a direct loan of $25,000 was made by the Valley Bank to the National Bank of Bakersfield, evidenced by their certificate of deposit for $25,000 dated July 7, 1923, due sixty days thereafter. This increased the total of loans and guaranteed discounts to $96,219.16, making an aggregate of $142,729.16 invested in stock of the National Bank of Bakersfield and paid out for the protection of such investment. With renewals, this $25,000 loan, evidenced by the certificate of deposit, ran continuously from July 7, 1923, to April 21, 1924.

Overdraft in the account of the National Bank of Bakersfield appeared on the books of the Valley Bank on May 16, 1923, and May 17, 1923. On July 25, 1923, the account was again overdrawn in the sum of $15,303.37. This overdraft, with slight variations in amount, was continuous from July 25 to August 1, 1923, inclusive. It was closed out on August 2, 1923, but on that date the guaranteed discounts again jumped from $68,119.16 to $93,113.96 to cover this amount. On September 4, 1923, however, the overdraft again appeared and was continuous until January 21, 1924, with but three or four short breaks. On September 26, the overdraft jumped from $34,359.48 to $70,679.48; the direct liability increased from $146,433.44 to $182,253.44. Under date of September 27, 1923, Cashier Crowell of the Valley Bank in a letter to Cashier Sims of the National Bank of Bakersfield, stated: "Unfortunately we have reached the maximum credit both rediscounts and certificates of deposit, and we are in rather a ticklish position on account of the overdraft." On September 28, 1923, Crowell again wrote to Sims stating that he would not be permitted to carry the overdraft. The overdraft disappeared on October 1, 1923, but reappeared on October 10th and with only two breaks continued in smaller amounts until January 21, 1924.

The peak of illegal loans to and rediscounts of National Bank of Bakersfield, overdrafts and illegal investments in the National Bank of

Bakersfield was reached on September 29 and 30, 1923, with the following:

Certificate of deposit	$25,000 00
Bank overdraft	40,397 41
Guaranteed rediscounts	120,887 62
Illegal investments (Whiting loan)	19,250 00
Total	$205,534 03

On October 8, 1923, the words "without recourse" were added to discounts amounting to $87,204.72 and loans aggregating this amount were transferred to a separate liability card. This, of course, was pure subterfuge without meaning. The discounts without recourse were not closed out until February 13, 1924, nor the unlimited endorsement discounts till May 26, 1924.

With direct loans running continuously from March 23, 1923, to May 26, 1924, the only attempt to approve these illegal loans by the board of directors or the executive committee was the resolution of the executive committee on May 16, 1923, approving a direct loan of $25,000 represented by certificates of deposit, as above set forth. On August 2, 1923, the board of directors passed a resolution authorizing a credit line of $50,000 direct and $100,000 rediscount, endorsed without limitation to the National Bank of Bakersfield. It will be noted that on May 4, 1923, the directors and officers of the Valley Bank owned over 700 shares out of 1000 shares of the capital stock of National Bank of Bakersfield. Present at this meeting of August 2, 1923, were all the directors of the Valley Bank, except M. D. Hopper, J. J. Graves, T. J. Field, P. J. Pierce and Henry Ross, who were absent. On October 4, 1923, this authorization was superseded by a resolution authorizing for a period of twelve months a credit line of $50,000 direct and $150,000 without limitation rediscounts. At this meeting all directors were present with the exception of T. J. Field and Henry Ross. The action taken at both directors' meetings was by the unanimous vote of all present. No attempt was made to authorize the transaction as a transaction under section 83 of the Bank Act. Even assuming that the transaction could have been legally authorized, at the meeting of August 2, 1923, there were not a majority of disinterested directors who could authorize the transaction. In no event, however, could the line of credit be approved at either meeting for the reason that the officers and directors of the Valley Bank owned and controlled more than a majority of the capital stock of the National Bank of Bakersfield.

4. The Monterey bank purchases. The stockholders of the Valley Bank on April 12, 1923, authorized the purchase of the Monterey Savings Bank for $150,385.80 and the Bank of Monterey for $225,955.86, being an aggregate purchase price of $376,341.66. The purchase was authorized by the board of directors at a meeting at which all members were present except M. D. Hopper, P. J. Pierce, A. E. Webb and W. D. Mitchell. The take-over of the two Monterey banks was as of the close of business on April 17, 1923. The stockholders and directors had authorized the purchase of the Monterey banks for the above named sum in "lawful money." The books of the Valley Bank showed $250,000 of borrowed money at the time, and it became necessary, in addition, to borrow the full amount neces-

sary to finance these purchases. This was done through the subterfuge of a dummy note signed by President Mitchell and Vice President McIndoo, individually. The note is discussed later. The loan was unauthorized by the board of directors or even the Executive Committee; however, it was later paid by the Valley Bank from proceeds of sale of bonds acquired in the take-over of the Monterey banks.

Before the take-over the book value of banking equipment was written up in the sum of $34,676.94. This appreciation was added to the capital group, consisting of capital, surplus and undivided profits, the whole representing the purchase price of $376,341.66. Accounts representing the capital group were then extinguished, as per the following table:

	Monterey Savings Bank	*Bank of Monterey*	*Total*
Capital	$100,000 00	$100,000 00	$200,000 00
Surplus	13,320 00	25,000 00	38,320 00
Undivided profits	37,065 80	66,278 92	103,344 72
Appreciation of banking equipment		34,676 94	34,676 94
Totals	$150,385 80	$225,955 66	$376,341 66

In lieu of these capital liabilities corresponding deposit liabilities, known as liquidating agent's accounts, were set up as follows:

April 18, 1923, savings department	$150,385 80
April 18, 1923, commercial department	191,278 92
April 19, 1923, commercial department	34,676 94
	$376,341 66

The accountng is faulty, incomplete and inadequate, and does not portray the facts. The substitution of the deposit liability for the capital liability kept the books in balance, it is true. It also permitted the note of $376,341.66 to go unrecorded in the records of the bank. Nevertheless this note created the funds which made the purchase possible and which constitute the true offset of the deposit liability set up. The Monterey banks were purchased with concealed borrowed money. It is a fact as shown above that the liquidating agent's account was split between the two departments and it follows that the concealed borrowed money was similarly split between departments:

Borrowed money, savings department	$150,385 80
Borrowed money, commercial department	225,955 86
Total borrowed money evidenced by dummy note of W. D. Mitchell and Ivan C. McIndoo	$376,341 66

Of this borrowed money the sum of $150,385.80 deposited in the savings department constituted a further violation of law to wit, a violation of the provisions of section 62 of the Bank Act that no savings bank shall borrow money, or pledge or hypothecate any of its securities, except to meet the immediate demands of its own depositors, and then only in pursuance of a resolution adopted by vote of a majority of its board of directors, duly entered upon its minutes wherein shall be recorded the ayes and nays upon each vote, and also with the written approval of the Superintendent of Banks. None of these requirements and restrictions were complied with.

The outward evidence of this concealed borrowed money was a dummy note signed by President W. D. Mitchell and Vice President

Ivan C. McIndoo of the Valley Bank in favor of Crocker National Bank of San Francisco, under date of April 17, 1923, due on demand, in the principal sum of $376,341.66, the exact amount of the purchase price of the Monterey banks. A pencil memorandum on the face of the note was: "Chg. int. on $356,695.56 fr. Apr. 17." Although Mr. Mitchell is said to have sailed for China on April 8th or 9th and not to have returned to California until about June 23, 1923, his name on the note is proof that he had full knowledge of the deal and was an active factor in the plans for financing it. There was paid on the principal of this note on May 14, 1923, $150,385.80, which was amount of the purchase price of the Monterey Savings Bank. There was paid on this note on July 28, 1923, $222,455.86, and on August 6, 1923, $3,500, the note being stamped "Paid" under date of August 6, 1923. On April 17, 1923, the Crocker National Bank advised W. D. Mitchell and Ivan McIndoo of the receipt of 945 shares of stock of Bank of Monterey and 952 shares of the stock of Monterey Savings Bank, and stated, "We have, therefore, executed your note for $376,341.66, but will charge interest from today on $356,695.56 of this amount." On May 24, 1923, the Crocker National Bank in a letter to W. D. Mitchell marked "Personal" advised of the receipt of 40 shares of Bank of Monterey stock and 13 shares of Monterey Savings Bank stock, for which $6,474.12 was paid. This sum with the sum of $356,695.56 made a total of $363,169.68, leaving the sum of $13,525.86 with the Crocker Bank, as advised in their letter of May 25, 1923, to pay for the remaining 35 shares of stock of each of the Monterey banks as soon as their disincorporation could be completed, the 35 shares being held in the names of the directors of the selling banks.

It is apparent from the above statement of facts and the fact is that the Valley Bank itself was buying this stock and W. D. Mitchell and Ivan C. McIndoo appear as dummies in the transaction.

The Valley Bank at this time had no funds available to pay the purchase price of the assets of the Monterey banks in accordance with the agreements. The payment of $150,385.80 on May 14, 1923, upon the principal of the note was made from funds derived from the sale of bonds acquired in the purchase of the Monterey Savings Bank. The ledger sheets of the Valley Bank itself showing the account with Crocker National Bank show that the account was built up from bond sales and that this amount was credited to the note of Mitchell and McIndoo. The decrease in the Crocker National Bank balance of $150,385.80 on May 11, 1923, was offset by a decrease in like amount on the same date in the "Monterey Savings Bank Liquidation Manager Account" carried in the individual ledgers, savings department, Monterey Branch, which account was thereby closed. That these transactions were had with the consent of the management of the Valley Bank is shown by the fact that the minutes of the Executive Committee meeting of May 2, 1923, show a resolution unanimously adopted that the bond department of the Valley Bank be authorized to sell the bonds acquired in the purchase of the Monterey banks for the purpose of liquidating "our indebtedness at the Crocker National Bank," at a net loss on the sale of said bonds not to exceed $3,500. The Valley Bank acquired from the two Monterey banks bonds amount-

ing to nearly $950,000 and over half of these bonds were sold, the board of directors on June 7, 1923, approving sales of said bonds amounting to over $650,000. The bonds remaining unsold at the time were largely irrigation district and land company bonds, some of which were prohibited investments and some of which were salable at a considerable loss, if then sold. Funds made available in this manner were used in the reduction of the indebtedness of the Valley Bank at the Crocker National Bank, evidenced by the dummy notes of Mitchell and McIndoo. In this manner the liquid assets acquired in the Monterey purchase were dissipated, not to meet the demands of depositors, but to pay the stockholders of the Monterey banks, that is the purchase price of the banks themselves.

On June 20, 1923, the "Bank of Monterey Liquidating Account" at the Monterey Branch of the Valley Bank was charged with the sum of $222,455.86 and a demand certificate of deposit was issued for a like amount payable to W. D. Mitchell and Ivan McIndoo, trustees. On July 27, 1923, this certificate of deposit was forwarded to the Crocker National Bank and on July 28, 1923, the note signed by W. D. Mitchell and Ivan C. McIndoo in favor of the Crocker National Bank was credited with that amount. This borrowed money, evidenced by the demand certificate of deposit, continued to be concealed until July 30, 1923, at which date it first appeared on the balance sheet of the head office in its true light as borrowed money, continuing as such until paid in December, 1923. On July 31, 1923, the liquidation account of the Bank of Monterey was closed by a charge of $3,500 and the credit of a like amount to the head office account, this being done by means of a certificate of deposit issued in favor of W. D. Mitchell and Ivan C. McIndoo and forwarded to the head office. The head office of the Valley Bank in turn on August 4, 1923, passed the credit to the Crocker National Bank with instructions to apply the funds on the principal of the Mitchell-McIndoo note, and to charge the account of the Valley Bank with interest.

The entire amount of interest on the $376,341.66 note of W. D. Mitchell and Ivan McIndoo was paid out of the funds of the Valley Bank.

In the commercial department of the Valley Bank, partly by reason of the above transaction, borrowed money exceeded capital and surplus continuously from June 19, 1923, to November 13, 1923, in violation of section 21*a* of the Bank Act; and from April 17, 1923, to August 6, 1923, the books of this department did not reveal the total liability for borrowed money. During this period a called report to the Superintendent of Banks and to the Federal Reserve Bank was made. In the called report of June 30, 1923, borrowed money is stated to be $350,000 while in reality it amounted to $575,955.86, an amount in excess of the capital and surplus of the commercial department. This suppression of facts in the called report is a felony under section 563*a* of the Penal Code. In the savings department, the bank's books contained an entry for concealed borrowed money from April 17, 1923, to May 14, 1923, in violation of section 62 of the Bank Act. The suppression of the facts in this respect in the books of the bank is likewise a felony under section 563*a* of the Penal Code.

In connection with the Monterey bank purchases, after purchasing the banks of the Monterey stockholders in a manner which seriously weakened the financial condition of the Monterey Branch and the Valley Bank as a whole, the officers of the Valley Bank sold to the Monterey stockholders stock in the Valley Bank at $150 a share when the book value of the said stock as shown by the books of the Valley Bank did not exceed $120 a share. In addition to this, the officers misappropriated $30,000 of this sum paid in by the Monterey stockholders for their stock and used it for the organization of the Valley Holding Company, which will hereinafter be set out.

5. Illegal purchase of stock of Western Group Securities Company. Prior to the purchase of the assets of the Bank of Monterey and the Monterey Savings Bank by the Valley Bank, the Bank of Monterey held 100 shares of the Western Group Securities Company at a book value of $5,000 and the Monterey Savings Bank held 100 shares of stock of Western Group Securities Company at a book value of $5,000, together with $3,000 par value certificates of Western Mortgage and Guaranty Company at a book value of $2,962.45. The approval by the Superintendent of Banks on April 18, 1923, of the purchase and sale agreements between the Bank of Monterey and the Valley Bank expressly disapproved the purchase of the Western Group Securities Company stock and excepted it from the operation of the agreement of purchase and sale. Similarly, in the approval given on the same date of the purchase and sale agreement between Monterey Savings Bank and the Valley Bank, disapproval and exception was made as to the shares in Western Group Securities Company and Western Mortgage and Guaranty certificates held by that bank. The letter of the Superintendent of Banks dated April 18, 1923, to the Valley Bank called particular attention to the fact that the proposed acquisition of these assets was not approved and that the law expressly prohibited a bank from purchasing corporate stock. In the face of this, the Valley Bank illegally acquired all the objectionable securities. The items were charged on the books of the Valley Bank to "other bonds," and carried at the same book value as in the Bank of Monterey and Monterey Savings Bank. On April 23, 1923, without authorization of the board of directors, the three items were charged to profit and loss. The charge to profit and loss was a mere attempt to evade the law and in no way corrected the wrong, the stock still being the property of the bank. Furthermore, this disposition of the funds of the bank was not authorized by the board of directors or even by the executive committee. These stocks were acquired by the Valley Bank in direct violation of section 37 of the Bank Act and contrary to the specific objections of the Superintendent of Banks. Their purchase constitutes a misappropriation of funds on the part of the officers responsible therefor. Section 561*a* of the Penal Code punishes as a felony the abstraction or wilful misappropriation of money, funds or property of a bank. On June 30, 1923, the Western Mortgage and Guaranty Company's certificates were sold to the Valley Holding Company and the $2,962.45 derived from the sale was credited on that date to undivided profits of the Valley Bank. The 200 shares of Western Group Securities Company stock was held by the Crocker National Bank of San Francisco for the Valley Bank from April,

1923, to March 18, 1924, on which date it was sent to Pacific-Southwest Trust & Saving Bank for safe-keeping. This stock did not appear on the books of the Valley Bank on the date of the sale to date of the sale of the Valley Bank on March 1, 1924. The stock is now held by Pacific-Southwest Trust & Savings Bank for sale for the benefit of the stockholders of the Valley Bank.

The entry of the three items as "other bonds" constitutes a false entry in the books of the bank within the meaning of section 563*a* of the Penal Code.

6. Monterey embezzlement and write-up of furniture and fixtures. On April 18, 1923, the date of the take-over of the Monterey Bank by the Valley Bank, the furniture and fixtures were charged on the books of the head office of the Valley Bank $9,761.24, the agreed purchase price. On April 21, 1923, that is, three days later, this debit entry was canceled and a new charge of $14,761.24 was made, resulting in a write-up of the furniture and fixtures of the Monterey branch amounting to $5,000. This $5,000 was on the same date deposited to a new acount opened in the name of "Ivan C. McIndoo, special." Several checks were later drawn on this account representing expense items, totaling $902.48. On May 2, 1923, $627.24 was paid from this account for interest on the Mitchell-McIndoo note for $376,341.66 at the Crocker National Bank. On May 29, 1923, $1459.81 was paid from this account for the same purpose.

On June 27, 1923, $1,005.24 was transferred from this account to the personal account of W. D. Mitchell and on the same date $1,005.23 was transferred to the personal account of Ivan C. McIndoo, the deposit ticket transferring these amounts, representing the balance of the $5,000 in the special account, being in the handwriting of Ivan C. McIndoo. The amounts transferred on June 27, 1923, to the credit of the personal accounts of W. D. Mitchell and Ivan C. McIndoo by deposit tickets written by the latter constitute an embezzlement of the funds of the bank by its President and Vice President. When interviewed by H. D. Swengel, now Vice President of Pacific-Southwest Trust & Savings Bank, on March 20, 1924, Ivan C. McIndoo stated that he had no direct knowledge of the fact of the $5,000 credit but was informed that it was offset by a charge representing appreciation of furniture and fixtures at the Monterey Branch. When asked if he knew that the money did not belong to him he replied in the affirmative. In the latter part of March, 1924, Ivan C. McIndoo made several attempts to deliver his check for $1,039.75 as a partial refund of the account of the Monterey furniture and fixture account, the check being dated March 23, 1924. Mr. McIndoo's final effort to deliver this check was accomplished by handing it to the head bookkeeper of the Pacific-Southwest Trust & Savings Bank at Fresno. This check was returned to Mr. McIndoo by Mr. Sutherland of the Fresno Branch of the Pacific-Southwest Trust & Savings Bank, with the statement that they could not accept the check, first, because the question as to whether or not it should be accepted should be determined by the stockholders of the Valley Bank or their representatives and that it was beyond the power of his bank to bind them by acceptance of the check, and secondly, even though it were within the power of the Pacific-Southwest Trust & Savings Bank to accept payment of the amount, that it would

constitute a clearance of the Monterey furniture and fixture account without going into the question as to whether the account was regularly set up and whether the remainder of the $5,000 write-up was properly expended. The real reason, of course, for the refusal of the check was that it might be construed as a condonation of the criminal act involved in the setting up and expenditure of the Monterey furniture and fixture account.

The above transaction probably constitutes an ordinary embezzlement and is at least a wrongful abstraction or misapplication of funds of the bank under section 561*a* of the Penal Code, which makes the offense a felony.

7. Purchase of the First National Bank, Sanger. The Valley Bank, through its authorized agents, entered into an agreement for the purchase of the business of the First National Bank of Sanger on February 3, 1923. The latter sold assets aggregating $959,840.02 for and in consideration of a

Cash payment made by the Valley Bank	$12,744 69
Deposit liability assumed by the Valley Bank	947,095 33
	$959,840 02

The sale was to the very great personal advantage of W. D. Mitchell for not only did he occupy the position of President and authorized agent of both the purchasing and selling banks, but on the date of the take-over he was the holder of record of 1032 shares of capital stock of the First National Bank of Sanger out of a total issue of 2000 shares or 51.6 per cent. On the same date he was the record owner of only 400 shares of stock of the Valley Bank out of a total issue of 8000 shares or 5 per cent. He dominated the sale and passed on the assets sold and the assets purchased.

Loans held by the First National of Sanger at the close of business on February 2, 1923, aggregated $578,467.67, of which, loans to the amount of $477,152.64 were sold to the Valley Bank of Fresno and the balance of $101,315.03 were retained by the liquidating agent for collection.

These notes will be considered here in groups only.

The ledger account of the liquidating agent with the Valley Bank, which was inspected on July 28, 1925, revealed that, aside from the $12,744.69 received from the Valley Bank on February 3, 1923, the total receipts from all sources amounted to $36,859.04. This was derived from the collection of loans, of interest collected and other sundry items. After two and one-half years of attempted liquidation, therefore, there has been collected less than $36,859.04 out of a total of $101,315.03 of notes left with the liquidating agent, or approximately 33 per cent. The exact figures as to collections have not been made available.

As above noted loans to the amount of $477,152.64 were sold to the Valley Bank in the take-over of February 3, 1923. Of these loans, a total of $119,670 were rejected by the Bank of Italy in the take-over of the Valley Bank on March 1, 1924, at which time, through additions made by the Valley Bank, the loans had been increased to $130,333.48. As of May 26, 1925, these loans are classified as follows:

Losses	$83,679 97
Doubtful	32,919 60
Not classified	13,733 91
	$130,333 48

In the other loans taken over from the First National Bank of Sanger by the Valley Bank, scheduled losses are $14,547.79 and doubtful loans, $11,740. Full detail of these items appears in the report of certain loans prepared by Examiners Gregory and Davis and attached to the reports of Examiners Sonne and McBride, marked Exhibit 34a.

Summary of results of attempted liquidation of the loans held by the First National Bank of Sanger on February 2, 1923, is as follows:

Loans held by liquidating agents		$101,315 03
Loans collected, not to exceed	$36,859 04	
Loans uncollected after 2½ years, not less than	64,455 99	
Loans rejected by Bank of Italy—losses	$83,679 97	
Loans rejected by Bank of Italy—doubtful	32,919 60	
Loans accepted tentatively by Bank of Italy—losses	14,547 79	
Loans accepted tentatively by Bank of Italy—doubtful	11,740 00	
Balance of loans purchased	325,527 64	
Net reduction	8,737 64	
Total loans February 2, 1923		$578,467 67

Recapitulation.

Losses, Bank of Italy—revolving fund	$83,679 97	
Losses, Bank of Italy—active loans	14,547 79	
Total determined losses		$98,227 76
Liquidating agent's notes, bad and doubtful—not less than		64,455 99
Doubtful—		
Bank of Italy revolving fund	$32,919 60	
Bank of Italy active loans	11,740 00	
		44,659 60
Total bad and doubtful		$207,343 35
Other loans—		
Liquidating agent	$36,859 04	
The Valley Bank	325,527 64	
Net reduction	8,737 64	
		371,124 32
Total loans, February 2, 1923		$578,467 67

Many of the notes sold to the Valley Bank had been running for years. The First National had been unable to collect even the interest and this had been added to the principal at times of renewal. Some of the especially objectionable notes sold to the Valley Bank are listed here for reference:

Nancy E. Austin	$8,500 00
W. C. Austin et al	3,000 00
Sig. F. Hobler	8,570 00
Kings River Land and Cattle Company	9,500 00
Ross B. Matkins	1,100 00
S. A. Mitchell	8,000 00
D. Miura	6,400 00
H. Kapakjian et al	6,000 00
V. Pinajian et al	1,900 00
V. Pinajian et al	2,500 00
Peter Winter et ux	7,500 00

The S. A. Mitchell note of $8,000 has been referred to in the discussion of the Mitchell and Virden Lumber Company. In Examiner Barth's report of examination of November 13, 1923, it is noted that

no basis of credit was given except that the loan carried the verbal guarantee of W. D. Mitchell. This note of $8,000 is a consolidation of two loans as follows: four thousand dollars loaned by the First National Bank of Sanger to the J. Ed Mitchell Estate on December 2, 1921, evidenced by note of S. A. Mitchell. Five thousand dollars loaned by the First National Bank, Sanger, to the J. Ed Mitchell Estate on September 20, 1922, evidenced by note signed "J. Ed Mitchell Estate, W. D. Mitchell, Exec." On January 6, 1923, when it was anticipated that the sale of the First National Bank of Sanger to the Valley Bank would be consummated on January 8, 1923, the above two loans to the Mitchell Estate were combined in one note of $8,000 and the total loan reduced by the payment of $1,000.

S. A. Mitchell is the widow of J. Ed Mitchell and sister-in-law of W. D. Mitchell. They were the sole beneficiaries of the J. Ed Mitchell Estate, S. A. Mitchell having a three-quarter and W. D. Mitchell a one-quarter interest therein. The funds represented by both of the loans were borrowed for the use of the J. Ed Mitchell Estate.

The Bank of Italy sued on this $8,000 note and took judgment against S. A. Mitchell only. The facts were little known and judgment should have been taken against W. D. Mitchell as well.

This $8,000 note of S. A. Mitchell was a dummy transaction in which W. D. Mitchell, President of the Valley Bank, had a large personal financial interest. The passing of it to the Valley Bank was an act proscribed by section 35 of the Bank Act. The take-over of the $8,000 note by the Valley Bank was of especial benefit to W. D. Mitchell. His direct connection with the transaction was thereby obscured so that he was eliminated as a party to the suit to collect the note.

Two liquidation dividends have been paid by the First National Bank of Sanger. These aggregate $37,500 of which $19,450 was disbursed to W. D. Mitchell. At least to this extent as well as to the extent of the $8,000 note of S. A. Mitchell, the sale of the bank to the Valley Bank was of direct financial benefit to W. D. Mitchell, for had there been no sale, there would have been no liquidation dividends but on the contrary without doubt assessments to make good an impairment of capital of the bank would have been levied, and he would have been required to make good the $8,000 dummy note carried in the name of S. A. Mitchell.

W. D. Mitchell, the President of the First National Bank of Sanger, was the loaning officer who granted these loans. He knew their history and probable value. He had long been active in the community and knew the financial responsibility of the borrowers. He knew that the bank had a large amount of uncollectible loans that had been carried on from year to year with many renewals and interest added to principal. He knew the condition of the First National Bank of Sanger. He knew that he held over fifty-one per cent of its stock, that a very considerable impairment of its capital must soon become obvious and that an assessment was inevitable. With all this in view and well acquainted with the facts as he was, he deliberately sold these bad and highly questionable notes to the Valley Bank with no regard for anything except his personal gain.

It was at first anticipated that the First National Bank of Sanger would be taken over by the Valley Bank on or about January 8, 1923. Anticipating this move a readjustment of a large number of loans was made obviously for the purpose of making them appear acceptable loans for the Valley Bank. Included in the adjusted loans were the following:

$5,000 Ivan C. McIndoo, Vice President, the Valley Bank, and M. K. Crowell, Cashier, the Valley Bank.
$4 600 E. R. Hudson, Cashier, First National Bank, Sanger.
$2,200 R. E. Giffen, Assistant Cashier, First National Bank, Sanger.

The McIndoo-Crowell loan was removed to the Crocker National Bank. Hudson and Giffen, who had been conducting the business of the bank under national charter, were unfamiliar with the requirements of the State Bank Act. Anticipating that they would become Manager and Assistant Manager of the Sanger Branch of the Valley Bank, they were told by the officers of the Valley Bank that their loans would not be eligible for transfer and they were advised to rewrite the loans in other names., Acting on this advice the E. R. Hudson note of $4,600 was replaced on January 8, 1923, by a note signed by his father, J. M. Hudson, for like amount; similarly the note of R. E. Giffen was replaced on January 9, 1923, by a new note signed by J. T. Clark. These dummy notes, signed by J. M. Hudson and J. T. Clark, were included in the assets purchased by the Valley Bank on February 3, 1923. They were not reported to the Superintendent of Banks as subject to the limitations of section 83, but rather were concealed by the executive officers.

At a meeting of the directors of the Valley Bank held on December 19, 1922, at which all directors, excepting C. R. Morton, were present the following resolutions, relative to the proposed purchase of the First National Bank of Sanger and W. D. Mitchell's interest therein, were adopted by the affirmative vote of all present:

Thereupon the following resolution having been duly introduced was unanimously adopted:

"*Be it resolved*, That the Board of Directors of this corporation do and hereby does recommend to the stockholders the purchase by this corporation of the First National Bank of Sanger, and to pay therefor a sum of money amounting to the book value of the present outstanding stock of said corporation."

Thereupon the following resolution having been duly introduced was unanimously adopted:

"*Be it resolved*, That whereas this corporation is desirous of purchasing the First National Bank of Sanger; and

"WHEREAS, W. D. Mitchell does own the major portion of the stock thereof, and does control said institution; now, therefore,

"*Be it resolved*, In consideration of said W. D. Mitchell's obtaining a sale of said First National Bank of Sanger to this corporation, that this corporation employ said W. D. Mitchell as general manager of this corporation, including home office and all branches thereof, for a period of five years at a salary of twenty-five thousand dollars per annum, payable in monthly installments, said installments to commence in January, 1923, and payable each and every month thereafter to and including December, 1927, and the president and secretary hereof are duly authorized and directed to enter into such contract for and on behalf of this corporation with said W. D. Mitchell, and to do and perform any and all acts necessary for the consummation of this resolution. It being understood that the sale of said First National Bank of Sanger to this corporation shall be on the same basis as the sale of the other branches now owned and operated by this corporation was made. That upon the completion of the

purchase and sale agreement between the First National Bank of Sanger and this corporation, the consideration for said employment shall be complete.

"The above salary to include compensation of said W. D. Mitchell as President of this bank so long as he retains said position and during the said five years."

At the directors' meeting held on February 1, 1923, at which all directors were present with the exception of C. R. Morton, Henry Ross and Ivan C. McIndoo, an attempt was made to whitewash the action taken on December 19th, as above quoted, and the following resolutions were adopted by the affirmative vote of all present:

Thereupon, the following resolution having been duly introduced, was unanimously adopted:

"*Be it resolved*, That the resolution passed by this corporation at a special meeting of the Board of Directors on December 19, 1922, wherein W. D. Mitchell, in consideration of obtaining the sale of the First National Bank of Sanger to this corporation, was employed as general manager of this corporation, at a salary of $25,000 a year for five years, be and hereby is rescinded, annulled and set aside."

Thereupon, the following resolution having been duly introduced, was unanimously adopted:

"*Be it resolved*, That whereas it appears upon the minutes of the Board of Directors of this corporation, at page 158 thereof, that a resolution was adopted to pay W. D. Mitchell a salary of $25,000 a year for five years in consideration of the obtaining of the sale of the First National Bank of Sanger to this corporation; and

WHEREAS, Said resolution was improperly drawn through mistake of the secretary of this corporation; and

WHEREAS, It was never resolved by the directors of this corporation that said W. D. Mitchell should receive any increase in salary in consideration for obtaining the sale of the First National Bank of Sanger to this corporation; now, therefore,

Be it resolved, That said resolution as it appears upon the minutes of this corporation, be stricken from the minutes."

8. Organization of Valley Holding Company. The Valley Holding Company was organized in March, 1923, to operate a bond business and to work out charged-off loans and foreclosures on real estate by the Valley Bank. This company was organized by the executive committee of the Valley Bank, which was composed of Directors Mitchell, McIndoo, Sayre, Say and Ross, the first four being officers as well. The manner in which the capital was obtained for Valley Holding Company was by diversion and misappropriation of funds of the Valley Bank and was as follows: At the time of the purchase of the two Monterey banks, 1000 shares of the capital stock of the Valley Bank was sold to the Monterey stockholders at $150 per share, after first having been "sold" to the executive committee for $120 per share. A stock certificate for the stock was issued to the members of the executive committee on May 19, 1923, and the very same day transfers of the stock were made to the various stockholders who had purchased the stock at Monterey on the misrepresentation that it had a book value of $150 when as a matter of fact its book value was approximately $122. The "sale" to the executive committee was fictitious and an attempt to conceal the nature of the transaction. From the proceeds of the sale of the 1000 shares of stock to the Monterey stockholders, $100,000 was added to the capital of the savings department, $20,000 was credited illegally to undivided profits, commercial department (see illegal dividends), and the remaining $30,000 was misappropriated to capitalize the Valley Holding Company, in which the stock was held by the executive committee as trustees for the stockholders of the Valley Bank. Not only was the $20,000 credited to undivided profits unlawfully so credited, but the diversion of $30,000 to the Valley Holding

Company from the capital paid in by the Monterey stockholders was an illegal diversion of the capital of the Valley Bank. This transaction was an illegal withdrawal of the capital of Valley Bank under section 560 of the Penal Code and was also an illegal abstraction or misapplication of funds and property of the bank under the provisions of section 561*a* of the Penal Code. In addition to this, of course, it was the perpetration of a gross fraud upon all of the Monterey stockholders, and resulted in a loss by reason of the squandering of the funds of the Valley Holding Company after their misappropriation.

Results of Operations, Valley Holding Company.

Losses—			
Note of L. Baker and S. E. Whiting			$200 00
Bills payable in re E. F. Sims' note for stock in National Bank of Bakersfield			26,628 60
Purchase of 17 shares the Valley Bank stock given to R. F. Barnett as a bonus			2,500 00
Interest paid during examination of November 13, 1923, on note of E. A. Brown and S. E. Whiting in the Valley Bank secured by stock of the First National Bank of Kingsburg			2,031 12
Total losses			$31,359 72
Profits from operations		$1,558 78	
Less interest paid	$811 47		
Normal expense	79 84		
		891 31	
			667 47
Net loss May 23, 1923, to June 30, 1925			$30,692 25

9. Loans to Valley Holding Company. The Valley Bank made two loans to the Valley Holding Company aggregating $9,588.57. One loan of $5,000 represented the Valley Bank's subscription to the Sun-Maid Raisin Association bonds. The other loan of $4,588.57 represents other real estate taken over with the Monterey Bank. This company was affiliated with the Valley Bank in the manner above set forth and was a corporation in which each of the directors of the Valley Bank was interested, and the making of the loans was legally impossible, because no interested director can vote or participate in the action of the board on the loan under section 83 of the Bank Act. The State Banking Department on October 23, 1923, upon inquiry by the Valley Bank through C. I. Dennis, Trust Officer, had advised the Valley Bank that the making of loans to Valley Holding Company in either commercial or savings department would be impossible owing to the identity of the constituency of the two corporations. These loans were made in violation of section 83 of the Bank Act and were not reported as required by law. The law makes any officer, director or employee of a bank who abstracts or who wilfully misapplies any of the money, funds or property of the bank, or who wilfully misapplies its credit, guilty of a felony. (Penal Code, section 561*a*.)

10. Illegal declaration of dividends. Dividend No. 2 of the Valley Bank was paid on July 2, 1923, amounting to $42,170, pursuant to resolution of the board of directors passed at a meeting on June 7, 1923, ordering a dividend of 5 per cent on the issued capital stock to stockholders of record June 30, 1923, out of the net earnings of the corporation for the six months ending June 30, 1923. Nothing was

transferred from undivided profits to surplus before declaration of this dividend as required by section 21 of the Bank Act.

Section 21 of the Bank Act provides and the general law of the state is that dividends may be paid only from the profits of the bank. Although this dividend of $42,170 was paid on July 2, 1923, the fifth semiannual report of the cashier of the bank, as well as the report of earnings and dividends of the Valley Bank for the six months period ending June 30, 1923, filed with the Superintendent of Banks, shows that the dividend not only was not paid from profits, but that there were no profits and on the contrary an actual loss was sustained by the bank during the six months ending June 30, 1923. The semiannual report of the cashier of the Valley Bank, covering that period, showed a net loss of $5,499.46. The report of earnings and dividends to the Superintendent of Banks for the same period showed a net loss of $15,499.46. The difference between the two figures probably represented the $10,000 charged to undivided profits on April 23, 1923, for Western Group Securities Company stock illegally purchased by the Valley Bank in the Monterey Bank purchase, contrary to specific instructions by the State Banking Department in letter of April 18, 1923. The actual loss was even greater because salaries, amounting to $4,837.38, due on June 30, 1923, were not paid until July 2, 1923. See false statement as to earnings, next following. The report of earnings and dividends for the six months ending June 30, 1923, referred to above, was subscribed and sworn to by W. H. Say, Vice President, and Montfort K. Crowell, Cashier, before Florence E. Balden, Notary Public, on July 14, 1923. It was not received by the State Banking Department until July 16, 1923, two weeks after the date of the dividend disbursement.

The declaration of this illegal dividend involves every director who voted for it. Section 560 of the Penal Code provides that every director who concurs in any vote or act of the directors by which it is intended to make any dividend, except from the surplus profits arising from the business of the corporation, and in the cases and manner allowed by law, is guilty of a misdemeanor. The declaration of the dividend also involves directors not present at the meeting. Section 570 of the Penal Code provides that every director, although not present at a meeting of the directors at which any act, proceeding or omission of such directors in violation of the chapter in which section 560 occurs, is deemed to have concurred therein if the facts constituting such violation appear on the records or minutes of the proceedings of the board of directors and he remains a director of the company for six months thereafter and does not within that time cause, or in writing require, his dissent from such illegality to be entered in the minutes of the directors. No director of the Valley Bank caused his dissent from the action in declaring this dividend to be entered on the minutes of the board within six months or at any time.

It may be noted in this connection, that the undivided profits account of the Valley Bank prior to this dividend had been illegally augmented by the sum of $20,000 received from the premiums paid by the Monterey stockholders for their stock in the Valley Bank, as will more fully appear from the discussion of organization of the Valley Holding Company. It is the settled law of this state that the

entire proceeds of the sale of capital stock, even when sold above par, are part of the capital assets or capital stock; and where money is received as premiums above the par value of stock sold, it is a part of the capital stock and not surplus profits, hence dividends can not be paid from such money. (*Merchants and Insurers Reporting Company* vs. *Schroeder*, 39 Cal. App. 226.) Not only was this declaration of dividends to stockholders illegal, therefore, but the action constituted a gross fraud upon the Monterey stockholders.

11. False statements as to earnings. Salaries to employees of the Valley Bank were regularly paid at the middle and close of each month. The entry for salaries, however, was made on other dates on three occasions, to wit: April 2, 1923, covering salaries from March 15 to March 31, 1923, of $4,738.24; July 2, 1923, covering salaries from June 15 to June 30, 1923, of $4,637.38; and January 2, 1924, covering salaries from December 16 to December 31, 1923, of $5,540.51. Had the entries of July 2, 1923, and January 2, 1924, been made at the close of the preceding month's business as was regularly done, and should have been done, the amounts would have shown as deductions in the reports of earnings and dividends made to the State Banking Department under oath on June 30, 1923, and December 31, 1923. The entries therefore, constitute false entries under the provisions of section 563*a* of the Penal Code and the reports constitute false reports under the provisions of the same section.

12. Investment in stock of First National Bank of Kingsburg. This transaction is very similar to the transaction with the National Bank of Bakersfield, and represents the purchase of the control of the First National Bank of Kingsburg. This transaction appeared in the Valley Bank in the form of a dummy loan to E. A. Brown, who was a former associate of S. E. Whiting, who acted as the agent of the officers and directors of the Valley Bank in purchasing stock of the National Bank of Bakersfield. In the commercial department, the Valley Bank loaned $15,500 upon 634⅔ shares of the First National Bank of Kingsburg, and in its savings department it loaned $12,500, secured by 500 shares of the First National Bank of Kingsburg. These shares had a par value of $25 and there were outstanding at the time 3000 shares of said stock. The transaction was primarily a violation of section 44 which provides that no bank shall make a loan secured by the stock of another bank, if by making such loan the total stock of such other bank held by the loaning bank as collateral will exceed in the aggregate 25 per cent of the capital stock of such other bank. In this case the stock collaterating these dummy loans to E. A. Brown represented more than one-half of the capital stock of the First National Bank of Kingsburg. In the second place, the Valley Bank loaned the full purchase price and value of the stock and the loans were excess loans. In the case of the loan in the commercial department, this was a violation of section 80 of the Bank Act, and in the case of the loan in the savings department was a violation of section 67 of the Bank Act. The notes were illegal and improper assets of the Valley Bank and the making of the loans constituted a misapplication of the funds of the Valley Bank within the meaning of section 561*a* of the Penal Code.

There was in existence a written contract, which was at one time seen by Mr. J. E. Fickett, executed between Ivan C. McIndoo, Vice

President of the Valley Bank, E. A. Brown and S. E. Whiting, providing that each was to assume one-third of the liability on these loans and to share equally in any profits resulting from the sale of the bank's stock collateral. This would make Ivan C. McIndoo criminally responsible under both section 83 and section 65 of the Bank Act.

13. Overdrafts, W. D. Mitchell. Section 39 of the Bank Act and 561 of the Penal Code provide that any officer, director or employee of a bank who knowingly overdraws his account with such bank and thereby obtains money, notes or funds of any such bank is guilty of a felony.

In the Valley Bank, as is the custom generally, checks that overdraw depositors' accounts were not paid until the overdraft had first received the approval of an officer of the bank. In this situation it was not possible for overdrafts of officers, who are readily available, to have been created without their knowledge. In the report of the directors' examination of March 22, 1922, the statement is made that all checks overdrawing accounts were referred to proper officers before being honored.

W. D. Mitchell, while President and a Director of the Valley Bank, overdrew his personal accounts at the bank on many occasions for amounts ranging up as high as $3,500. His overdrafts were continuous over considerable periods of time. As noted above, each such overdraft constituted violations of section 39 of the Bank Act and 561 of the Penal Code, the penalty for which is felony.

14. Overdrafts, Ivan C. McIndoo. While a Vice President and Director of the Valley Bank, Ivan C. McIndoo overdrew his account at the bank on numerous occasions over a period from June, 1921, to January, 1924. On August 27, 1923, his account was overdrawn $1,328.01. These overdrafts constitute felonies under section 39 of the Bank Act and 561 of the Penal Code.

15. Overdrafts, W. H. Say. While a Vice President and Director of the Valley Bank, W. H. Say overdrew his account in the Valley Bank on numerous occasions, the last overdraft being one of $268.93 on April 19, 1923. Same criticism as above.

16. Overdrafts, Henry Ross. While a Director of the Valley Bank, Henry Ross overdrew his account with that bank in February, March and December, 1923, for small amounts. Same criticism as above.

17. Overdrafts, M. K. Crowell. From December 4 to December 10, inclusive, 1923, the account of Cashier M. K. Crowell was overdrawn, in variable amounts. On December 10th, Cashier Crowell covered the overdraft by depositing to his personal account funds transmitted to him by C. H. Claugie for the express purpose of buying stock in the Valley Bank from the next available offering. In the presence of Director Say, Chief Examiner Wingate cautioned Cashier Crowell against transgressions of this sort, and the promise was made that the $1,000 would immediately be made good. This is also shown by a memorandum by Chief Examiner Wingate hereby attached, made a part hereof and marked Exhibit 28.

On many other dates in the years 1921, 1922, 1923 and 1924 the account of Cashier Crowell with the Valley Bank was overdrawn. Each such overdraft constituted an offense under section 39 of the Bank Act and 561 of the Penal Code, punishable as a felony.

18. Overdrafts, M. P. Hall. On many occasions during 1921, 1922, 1923 and 1924, M. P. Hall, Assistant Cashier of the Valley Bank, overdrew his account in that bank, the last overdraft occurring on January 31, 1924. The offense and penalty are the same as in the cases above noted.

19. S. A. Mitchell note $8,000. This is a dummy note, the loan having been made for the benefit of the J. Ed. Mitchell Estate in which S. A. Mitchell, the widow, had a three-quarter and W. D. Mitchell, the brother, a one-quarter interest. The loan originated in the First National Bank of Sanger, $4,000 of it running under the name of S. A. Mitchell since December, 1921. A $5,000 loan was granted by same bank in the name of "J. Ed. Mitchell Estate, W. D. Mitchell, Exec." on September 20, 1922. On January 8, 1923, $1,000 was paid on the account and the balance of the two notes combined into the dummy note of $8,000 in the name of S. A. Mitchell. This note was passed to the Valley Bank when that bank purchased the First National Bank of Sanger. It has been renewed several times and the obligation is now evidenced by her note of $8,000 dated January 6, 1924, which has been reduced to judgment.

The original loans were not authorized by court. They were clearly for the benefit of W. D. Mitchell. The renewal of the note in the Valley Bank constitutes a violation of section 83 of the Bank Act, the penalty for which is felony.

20. Loan of $22,500 to William McIndoo. A loan was made to William McIndoo dated October 22, 1923, due in six months, for $22,500. William McIndoo is the father of Ivan C. McIndoo, a Director and Vice President and member of the executive committee of the Valley Bank. The note was made out by William McIndoo in the presence of Ivan McIndoo and Mr. Antone Decker, note teller, at the Fresno office of the Valley Bank. At the time, Ivan McIndoo himself wrote a deposit ticket depositing the funds to his own account. This note was on the same date forwarded to the Monterey Branch, accompanied by a letter of instructions written by Cashier Crowell advising the Monterey Branch office to place it in their note file. The note was transmitted to the Monterey Branch for the purpose of concealing the character of the loan. The loan was made directly for the use of Director McIndoo, and was a dummy loan to him. Director McIndoo also voted approval of the loan. The personal account of Director McIndoo, prior to October 22, 1923, had steadily dwindled to a balance of $476.93 upon that date prior to the credit of the $22,500. No large amounts were transferred from the account thereafter, which is proof that the funds were borrowed for his own personal use. The making of this loan was a clear violation of section 83 of the Bank Act. The loan was not reported to the Superintendent of Banks as required by section 83. Section 83 of the Bank Act provides that no loan shall be made for himself or his agent or partner of another, directly or indirectly, to any officer of any commercial bank by such bank or on the endorsement, surety or guarantee of any such officer. Section 83 further provides that any officer, director, agent or employee of a commercial bank who knowingly procures a loan from such commercial bank contrary to the provisions of that section, shall be guilty of a felony.

Section 561*a* of the Penal Code provides that any officer, director, employee or agent of any bank who extracts or wilfully applies any of the money, funds or property of such bank or wilfully applies its credit is guilty of a felony.

21. Loans to C. H. Glaugie. The Valley Bank, through the Sanger Branch, made loans to C. H. Glaugie which aggregated $4,300 on the date of the annual examination in November, 1923. On December 7, 1923, another loan was made to C. H. Glaugie. The proceeds of all these loans were credited to the account of W. D. Mitchell, President of the Valley Bank, on account of the W. D. Mitchell Ranch. The borrower was employed on a salary by W. D. Mitchell, with full power of attorney to handle all Mitchell's ranch operations in the vicinity of Sanger, and the proceeds of the loans were used in financing the operations of the W. D. Mitchell Ranch. The notes were supported by a financial statement given by Glaugie, which included ranch products such as raisins, dried fruits, sheep, etc., all apparently the property of W. D. Mitchell and not belonging to C. H. Glaugie. The so-called financial statement was given solely for the purpose of concealing the true state of facts. Investigation in December, 1923, by Chief Examiner Wingate corroborated these facts. This appears from his memorandum attached hereto and made a part hereof, marked Exhibit 28.

These loans were directly for the benefit of the President of the Valley Bank and obtained in violation of section 83 of the Bank Act. They were not reported to the Superintendent of Banks as required by section 83 of the Bank Act. Section 83 expressly prohibits loans directly or indirectly to any officer of a commercial bank, and provides that any officer who knowingly procures a loan from such commercial bank contrary to the provisions of the section should be guilty of a felony. It would appear that all directors concurring in the vote by which the loan was made are criminally involved under section 561*d* of the Penal Code.

22. Loans to T. F. Saunders. Loans to T. F. Saunders aggregating $10,236.90 were held by the Valley Bank on November 13, 1923, and appear to be dummy loans taken in workout of indebtedness of R. C. Bigelow. In addition, there was a $2,500 loan to Riverside Vineyard Company, endorsed by T. F. Saunders. Saunders was confidential secretary to President Mitchell and was employed by the Valley Bank at a salary of $500 per month. These loans were obtained and made in violation of section 83 of the Bank Act and were not reported as required by law.

23. Loan to A. P. McMillan. The Valley Bank loaned to A. P. McMillan and wife $15,000 on May 10, 1920, there being no financial statement to support the loan. There was no reason for continuing this loan in the bank except the fact that McMillan was negotiating with the Mitchell and Virden Lumber Company to operate gravel beds located on their Sonoma County property. This loan was therefore connected with the Mitchell and Virden Lumber Company operations of President W. D. Mitchell and its continuance, therefore, was of personal interest to him. Loan is now classed a loss.

24. Loans to Eric Larsen. The Valley Bank on November 24, 1922, loaned $50,000 to Eric Larsen and on January 9, 1923, loaned $6,875 to Christine Larsen, his wife. The borrower was an unsuccessful wheat

farmer, operating property subject to a very heavy mortgage. Sometime prior to the making of the Larsen loan, a private detective was sent to investigate Mr. Larsen and his affairs. His report which was returned to Jap E. Mitchell, who was one of the stockholders of the Valley Bank, holding 100 shares, was very unfavorable to Mr. Larsen and showed him to be a very undesirable risk. In the face of this report, however, the loan to Larsen was made.

Upon making application to the Valley Bank for the loan, he was told that it would be necessary for him to see Jap Mitchell. He was told by Jap Mitchell that he could secure a loan of $50,000 for him but that it would be necessary for him to be paid a commission of $5,000. Larsen agreed to this and Jap Mitchell then sent Larsen back to W. D. Mitchell, President of the Valley Bank, and the loan was made by the Valley Bank. The balance of $45,000 was placed to the credit of an account in the Valley Bank which was under the control of Jap Mitchell, for the reason that it was to be drawn out only on a budget system basis in order to insure that all of the money went into the crop. During the month of February following the date of the loan, it became evident that the February budget was insufficient to meet that month's requirement and Larsen asked Jap Mitchell for a release of part of the March budget. This was refused until he paid Jap Mitchell $500 for this service. The same performance was repeated in June, at which time in order to release the moneys of the subsequent month it was necessary to pay Jap Mitchell $1,000. At some point during this period, Jap Mitchell claimed that he was entitled to a salary for supervising the account and insisted that he receive $150 per month for a term of twelve months, and was accordingly paid the sum of $1,800 under that arrangement. After the crop was harvested and the grain was delivered to the Deacon Warehouse Company and before the company made returns to the bank, Jap Mitchell demanded and received a commission of $1,250 for the sale of the grain.

With utter disregard for the great risk involved, the Valley Bank made additional advances to Eric Larsen. On the balance sheet and general ledger an item of $20,000 under the caption "suspense account" was entered on June 16, 1923. The item is evidenced by a debit tag as follows:

> Debit suspense. Larsen Mitchell Securities Protection Account. M. P. Hall, Trustee. M. P. Hall or Mr. Chapin will sign. For harvesting to protect Larsen lease Tulare Lake and for harvesting expenses to protect crop mortgage held by the Valley Bank. Date 6-16-23 $20,000.

An offsetting credit was made on the same date to a ledger account under the caption "M. P. Hall, Trustee—$20,000." As stated in the debit tag, the funds were used in harvesting the crops of Eric Larsen grown on the Larsen lease at Tulare Lake.

This suspense item, known by the officers to be subject to severe criticism, was concealed in the called report of June 30, 1923. This was accomplished by omitting to report the account and adding the amount to loans and discounts for the sake of a balance. It is a false and untrue entry in a report of condition to the Superintendent of Banks with wilful intent to evade the facts, under section 563*a* of the Penal Code. The called report bore an affidavit to the effect that the signers had personal knowledge of the matters contained therein, and that the

report of condition and schedules pertaining thereto was true to the best of their knowledge and belief. This was signed and sworn to by W. H. Say, Vice President, and Montfort K. Crowell, Cashier. The said called report was published in the Fresno *Bee* in the issue of July 12, 1923.

The loans to Eric Larsen were in excess on June 30, 1923, of the legal amount which the Valley Bank might loan to one borrower, under the provisions of section 80 of the Bank Act. Jap E. Mitchell and M. H. Elliget were interested with Larsen in this lease, and M. P. Hall, who acted as trustee, was an officer of the Valley Bank.

Under date of July 16, 1923, Cashier Crowell asked permission of the Superintendent of Banks to grant this latter extension of credit of $20,000 to Eric Larsen. The Superintendent of Banks on July 18, 1923, replied that it would not be possible to grant the permission desired, and on July 23, 1923, Crowell again wrote the department stating that the additional loan would not be necessary as funds had been received from sale of crop. Nevertheless, the loan had been made and charged to "Suspense account" instead of to "Loans and discounts" a full month before permission was asked. It was recognized as an illegal loan, as shown by the letter of Crowell and by the debit tag itself and by the wilful concealment of the item in the called report.

25. Loans to E. R. Mitchell. A large amount of unsecured credit was granted to E. R. Mitchell, the father of Jap Mitchell, the unpaid balance of which, viz. $11,075, is now listed as a loss. These were dummy loans made for the benefit of Eric Larsen. Direct loans to the latter had reached the limit permitted under section 80 of the Bank Act. See Eric Larsen loans above. The Valley Bank also loaned E. R. Mitchell $6,000 on 240 acres of alkali land with no water rights. The land is appraised at only $5,000.

26. Loans to Jap E. Mitchell. Some of the activities of Jap E. Mitchell in connection with the Valley Bank are discussed under the Eric Larsen loans above. His close affiliation with W. D. Mitchell was there noted. In addition the Valley Bank made extensive loans to Jap E. Mitchell himself, the unsecured loans amounting to $32,880. On one of these loans $10,165.45 has been paid and the entire balance of the loans is considered very doubtful. In addition to the loans to Jap E. Mitchell in the commercial department, the Valley Bank loaned large sums to Jap E. Mitchell in the savings department on security of real estate. These latter loans aggregate $37,800, of which only $4,000 is considered good, $3,500 a loss and the balance doubtful.

27. Loans to Ambrose and Frank Blakeley. These borrowers were Tulare Lake grain ranchers, buying 2200 acres under contract from Eric Larsen. (See above.) The unpaid balance of loans and discounts of these borrowers amounts to $40,215.56 which amount is listed as a loss at this time. Included in this amount are four notes, aggregating $15,450 given by them to Mitchell and Virden Lumber Company in payment for capital stock and endorsed and discounted by that company. The Larsen indebtedness was assumed by Ambrose Blakeley under the terms of the contract by which he purchased the Larsen land. This contract was arranged for by Jap E. Mitchell who charged a fee of $12,000 for that service, the money to be paid out of collections under the contract.

28. Salaries to Executive Committee. The executive committee of the Valley Bank consisted of President, W. D. Mitchell, Vice President, Chase H. Sayre, Vice President, W. H. Say, Vice President, Ivan C. McIndoo and Henry Ross, all of whom were directors of the Valley Bank. This executive committee, without authorization from the board of directors, voted themselves a salary of $100 per week to each member of the executive committee except the President, and Vice President W. H. Say. On May 16, 1923, the executive committee voted a salary to W. H. Say of $500 per month as appraiser for the Valley Bank. "This compensation not to include fees charged for appraising city or county loans, but to include Mr. Say's salary as a member of the executive committee." These sums were paid to the executive committee from June 2, 1923, to January 1, 1924. The members of the executive committee voted themselves this money and accepted the money from a bank which was not earning dividends, and, from whose own statement, had operated for the six months prior to June 30, 1923, at a loss. The action appears neither in the minutes of the directors nor of the executive committee. Each member of the executive committee being interested in the matter would have been disqualified by law from voting upon the matter, even if it had been passed upon by the board of directors. The diversion of funds was without authority or ratification of the board of directors. Section 561*a* of the Penal Code provides that any officer, director, employee or agent of any bank who abstracts or wilfully misapplies any of the money, funds or property of such bank, or wilfully misapplies its credit, is guilty of a felony.

29. Commissions to W. H. Say on loans made by the Valley Bank. Mr. W. H. Say was a Director, Vice President and member of the executive committee of the Valley Bank and as such was one of its loaning officers. He likewise acted as appraiser for the Valley Bank of property securing loans and as such received compensation in addition to his compensation as an officer of the bank. Mr. Say on numerous occasions collected and deposited to his account commissions upon loans made by the Valley Bank, loans approved by him as an officer and director and member of the executive committee of the Valley Bank and the security for which loans he himself had appraised. No more vicious practice can be indulged in any bank that that of officers soliciting and accepting commissions upon loans made by such bank. We have the documentary proof of the acceptance by W. H. Say of commissions on loans in numerous instances. Section 39 of the Bank Act and section 561 of the Penal Code provide that any officer, director, agent, teller, clerk or employee of any bank who asks for, receives, or consents or agrees to receive, any commission, emolument, gratuity or reward, or any promise of any commission, emolument, gratuity or reward, or any money, property or thing of value or of personal advantage for procuring or endeavoring to procure for any person, firm or corporation, any loan from any such bank is guilty of a felony.

30. Commissions to M. P. Hall on loans made by the Valley Bank. Mr. M. P. Hall was assistant cashier of the Valley Bank and one of its loaning officers. We have evidence of instances in which Hall accepted commissions on loans made by the Valley Bank. The receipt or

acceptance of commissions on loans is punished under section 39 of the Bank Act and section 561 of the Penal Code as a felony.

31. Receipt of dividends by Mitchell and McIndoo upon stock sold to Coalinga stockholders. On December 7, 1922, the directors declared a dividend of 5 per cent on the issued capital stock of the Valley Bank to be paid on December 22, 1922, to stockholders of record December 20, 1922, out of the net earnings of the corporation for the six months ending December 31, 1922. Under date of December 19, 1922, 1000 shares of treasury stock were issued and the funds apportioned as follows: 250 shares, commercial department, capital $25,000; to undivided profits $12,000; 750 shares savings department, capital $75,000; to undivided profits $36,000, making a total of 1000 shares at $148 per share or $148,000. From December 1, 1922, to December 8, 1922, 247 shares were sold directly to Coalinga stockholders and 753 shares were issued to W. D. Mitchell and Ivan C. McIndoo, 371 shares to McIndoo and 382 shares to Mitchell. All the certificates were dated December 1, 1922. Also as of December 1, 1922, there were sold to Coalinga stockholders 113 shares of stock standing in the name of Ivan C. McIndoo covered by certificate No. 433. The stock issued to Ivan C. McIndoo and W. D. Mitchell as of December 1, 1922, was sold, chiefly to Coalinga stockholders, in the early part of 1923. Upon this stock thus transferred to Ivan C. McIndoo and W. D. Mitchell out of the treasury stock issued December 19, 1922, McIndoo and Mitchell received as a dividend on December 22, 1922, because they held the stock of record on December 20, 1922, the sum of $3,765. This stock was resold by Mitchell and McIndoo at $150 a share, or a profit of $2 per share on the 753 shares issued to them, in addition to the $5 dividend received by them. This additional $1,506 makes a grand total of $5,271 extracted by this manipulation. In other words, Mitchell and McIndoo by reason of their positions had this stock issued to them to receive this unearned dividend and to make a profit from the Coalinga purchasers.

32. The Industrial Bank, Fresno. Illegal write-up of furniture and fixtures, after purchase by the Valley Bank, to provide funds paid to John Miscovich without authorization of the board of directors, purported and believed to be commission allowed for negotiating sale of said The Industrial Bank of Fresno.

In the purchase and sale agreement entered into under date of May 2, 1923, by and between The Industrial Bank, Fresno, and the Valley Bank of Fresno, the latter agreed to purchase the assets and assume the liabilities of the former for an agreed purchase price of $35.06, that being the difference between the book values of the assets purchased and liabilities assumed.

Assets purchased	$410,622 41
Liabilities assumed	410,587 35
Cash paid	$35 06

Banking equipment, including premises, vaults and fixtures, was listed in the said agreement of purchase and sale at an asset value of $50,000. This represented a write-up before purchase of $25,947.44,

since the accounts affected stood in the books of The Industrial Bank on May 2, 1923, as follows:

Bank premises	$19,599 17
Furniture and fixtures	3,833 89
Safe deposit vaults	619 50
	$24,052 56
Write-up	25,947 44
Purchase and sale price	$50,000 00

The take-over occurred at the close of business on May 22, 1923. Entries were made on the books of the Valley Bank on May 24, 1923, the accounts under discussion showing increases as follows:

Bank premises	$50,000 00
Vaults	500 00
Furniture	50 00
Fixtures	500 00
Office appliances	1,450 00
	$52,500 00
Purchase and sale price	50,000 00
Illegal write-up after purchase	$2,500 00

This write-up was made in direct violation of that part of section 45 of the Bank Act which reads as follows:

> nor shall any bank, except with the previous written consent of the superintendent of banks, enter or at any time carry on its books any of its assets at a valuation exceeding its actual cost to such bank.

It also constitutes false entries in the books of the bank, punishable as a felony under section 563*a* of the Penal Code. It is not to be doubted that these false entries were made at the direction of President W. D. Mitchell. Otherwise there was no occasion for Andres, who is considered to have been a very competent clerk, to have made them. It is believed that acts of this sort weighed heavily on the mind of J. E. Andres and prompted his suicide on the morning of December 26, 1923.

Under date of May 25, 1923, a cashier's check, No. 7611, for $2,500 was issued in disbursement of the funds derived from this illegal appreciation. This check was drawn payable to "Ourselves" and endorsed:

> Pay to the order of John Miscovich, the Valley Bank, by J. E. Andres, Assistant Cashier.

This disbursement, made without authorization of the board of directors, constituted a misappropriation of funds obtained fraudulently through false entries on the books of the Valley Bank which is an offense, cited in section 561*a* of the Penal Code, punishable as a felony.

33. False reports and statements. The California Bank Act aims to surround the depositor with certain safeguards and assurances of sound banking and upon these safeguards and assurances the confidence of the public in our institutions is maintained. Prominent among these provisions are the called reports and other reports rendered to the Superintendent of Banks and the published reports of condition made in conformity with the provisions of section 130, 130*a*, 131 and 132 of the Bank Act. The call for such reports is made at least

four times a year, coincident with the call for report made on national banks by the Comptroller of the Currency.

The importance of the called reports and other reports published and rendered to the Superintendent of Banks is not to be underestimated. They come at frequent periods and it is intended that by means of such reports the office of the superintendent may be kept in sufficiently close touch with the trend of affairs in our state banks during the period between examinations. That the strictest integrity be maintained in the statements made in such reports is of the highest importance. The correctness of the statements made in called and other reports appears to have been of no concern whatsoever to the executive officers of the Valley Bank, regardless of the fact that under oath they made affidavit to the effect that they possessed a personal knowledge of all matters contained in such reports and that "every allegation, statement, matter and thing therein contained, is true to the best of their knowledge and belief." A vast number of offenses of this nature have been listed and appear in the report, prepared by Examiners Gregory and Davis, attached hereto, made a part hereof and marked Exhibit 34*a*. Many of the thirty-two topics, previously discussed in this section, were wilfully concealed by false statements in called reports and other reports. False statements of earnings were made, false statements regarding directors' examinations, and false statements regarding overdrafts of officers.

The called report of December 31, 1923, of the Valley Bank was subscribed and sworn to by W. D. Mitchell, President, and M. K. Crowell, Cashier. This called report stated that the directors' examination of the bank had been made on December 11, 1923, and the report of that examination was filed with the records of the bank on December 11, 1923. As a matter of fact the directors' examination, which was begun sometime around December 11, 1923, was never completed and the report of the examination was never signed by the directors supposed to make it, nor sworn to as required by section 139 of the Bank Act and was never in a condition to be filed and was never presented to the board of directors.

In called reports, the following form is provided: "Overdrafts to officers, directors and employees," with space provided for inserting the aggregate of such overdrafts on the date of the call for report. Invariably in the called reports of the Valley Bank, the answer to this inquiry was "none." In this regard false statements have been made in the following instances, to wit: in the called report of March 10, 1922, and in the called report of September 15, 1922. In each of these instances President Mitchell's account was overdrawn, although not reported, and in the second instance the account of Ivan C. McIndoo was also overdrawn and not reported.

From the number and nature of these false reports and statements it is obvious to anyone familiar with the facts that they were made wilfully, with intent to deceive and did deceive the Superintendent of Banks with regard to these specific matters. For example, the National Bank of Bakersfield transactions would never have gotten under way or been allowed to continue had not false reports been deliberately made with intent to deceive.

These false reports and false statements come within the terms of section 563*a* of the Penal Code and each and every act is punishable as a felony.

Many of the above set forth irregularities and illegalities are shown by the report of an examination of certain loans acquired by Bank of Italy and Pacific-Southwest Trust and Savings Bank from the Valley Bank, made by Examiners John M. Gregory and W. B. Davis of the State Banking Department, supplemental to the examination report of Examiners Sonne and McBride. This report of examination containing numerous exhibits is a part of the report of Examiners Sonne and McBride, and is attached hereto, made a part hereof and marked Exhibit 34*a*. Several of these matters are shown also by a letter from H. A. Savage to the Superintendent of Banks, the Bank of Italy and the Pacific-Southwest Trust and Savings Bank under date of April 2, 1925. A copy of this letter is attached hereto, made a part hereof and marked Exhibit 29.

III.

The foregoing consideration of many irregularities and illegalities existing in the Valley Bank in great part explains the serious condition in which the Valley Bank found itself in the latter part of 1923 and the early part of 1924, prior to its sale. The numerous illegal loans themselves run into an enormous sum, while the illegal practice of some of the loaning officers of the Valley Bank in accepting, if not soliciting or extorting, commissions upon loans made by the Valley Bank, is sufficient explanation of the general bad and doubtful character of the loans.

During the whole period under consideration, to wit, from November 13, 1923, to March 1, 1924, if not for some time prior to the commencement of that period, the circumstances existed and the Valley Bank was in the condition mentioned in section 136 of the Bank Act authorizing the Superintendent of Banks to take possession of the bank and liquidate it. That section provides:

> Whenever it shall appear to the superintendent of banks that any bank has violated the provisions of its articles of incorporation or any law of this state, *or is conducting its business in an unsafe or unauthorized manner, or if the capital of any bank is impaired*, or if any bank shall refuse to submit its books, papers and concerns to the inspection of any examiner or if any officer thereof shall refuse to be examined upon oath touching the concerns of any such bank or if any bank shall suspend payment of its obligations, *or if from any examination or report provided for by this act the superintendent of banks shall have reason to conclude that such bank is in an unsound or unsafe condition to transact the business for which it is organized, or that it is unsafe and inexpedient for it to continue business*, or if any bank shall neglect or refuse to observe any order of the superintendent of banks specified in sections one hundred thirty-three or one hundred thirty-four of this act, the superintendent of banks may forthwith take possession of the property and business of such bank and retain such possession until such bank shall resume business or its affairs be finally liquidated as herein provided

It appeared from the examination of the Valley Bank that the bank had violated numerous laws of this state and was conducting its business in an unsafe and unauthorized manner, and that its capital was impaired to a serious extent. Upon the examination and report of that examination, as Superintendent of Banks, I had reason to conclude and did conclude that the bank was in an unsound and unsafe condition

to transact the business for which it was organized, and that it was unsafe and inexpedient for it to continue business, unless the condition of the bank and the unsafe and illegal practices were immediately corrected. These conditions existed on November 13, 1923, and continued to exist thereafter, and not only did the management of the Valley Bank not correct the conditions after demand of the Superintendent of Banks that they do so, but the conditions got steadily worse until a crisis was reached during the week preceding March 1, 1924, which caused me, in my discretion as Superintendent of Banks, to give the Valley Bank the alternative of removing bad and illegal paper or of selling to some other responsible bank or banks, or otherwise I would have and it would have been my duty to have taken possession of the property, business and assets of the Valley Bank in accordance with section 136 of the Bank Act and to have proceeded to liquidate the same according to law.

From the facts which have been discovered concerning the Valley Bank, it appears that the condition in which the Valley Bank found itself late in 1923 and early in 1924 was not a condition suddenly arising which could not be foreseen by the management, but was the direct and certain result of the bad management and illegal practices permitted by the directors of the Valley Bank to exist in their institution. That the Valley Bank had been in a declining condition for a year or more prior to the examination of November 13, 1923, clearly appears.

Continued growth or persistent loss in deposits over a period of time is an excellent index of the trend of condition of a bank. This trend is likewise a sure indication of the trend of public confidence in a banking institution. The fact that the Valley Bank was gradually losing ground during the whole of the year 1923 and was in acute distress in the early part of 1924, culminating in the latter part of February, 1924, is shown by the loss in deposits. At the same time the serious condition of the bank was accentuated by the over-loaned condition, which condition was recognized by the auditor of the Valley Bank as early as January, 1923, as will hereinafter appear.

In the year 1921, the year in which the Valley Bank was licensed, the bank closed the year with $3,135,626.50 in deposits, of which $752,838.13 had come to them by purchase of the Reedley Branch. In other words, there was a natural growth in deposits of $2,382,788.37 for the year 1921. The growth in loans for that year was $2,047,686.74, eliminating consideration of the $655,130.48 of loans purchased from the Reedley bank. During the year 1922, there was a natural growth in deposits of but $1,577,184.44, after deducting deposits purchased with the Selma, Biola, Coalinga and Kerman branches, amounting to $2,644,595.64. During that year, however, there was a natural increase in loans of $1,605,946.45 after deducting the $1,585,069.77 in loans purchased that year from the said branches.

In the year 1923, after deducting the deposits acquired in the purchase of the Sanger, West Fresno and Monterey banks, there was a *loss* in deposits of $708,449.70, while there was a natural growth in loans over the loans purchased with the Sanger, West Fresno and Monterey banks of $1,447,311.06, that is a gross increase in loans amounting to double the loss in deposits. By reason of these facts alone, the Valley Bank in December, 1923, therefore, was in a badly

frozen condition, without considering the ultimate possible recovery from its paper. During the period from the beginning of the examination on November 13, 1923, up to the end of the year, there was a net loss in individual deposits amounting to about $60,000.

From December 31, 1923, the gradual but large loss of deposits which had been going on for a year or more developed into a silent "clearing house run," through which the commercial deposits of depositors were drawn out at a very rapid rate. Although savings deposits, which are always the last to be affected, were drawn out more slowly, yet there was likewise a constant drain on the savings department. Between the thirty-first day of December, 1923, and February 7, 1924, the date on which the Valley Bank changed its management by deposing its President, W. D. Mitchell, and electing J. J. Graves, President and J. E. Fickett, Manager, the Valley Bank lost in commercial deposits $691,246.68; in savings deposits $167,934.20; in demand certificates of deposit $15,988.22; and in time certificates of deposit $56,885.41, or a total of $932,054.51, while in these items and certified checks and cashier's checks, they had lost $1,051,798.63. Despite the change in management and the attempt of the bank to stem the outward flow of deposits, between February 7 and February 24, 1924 (the latter being the date on which I called together the representatives of the Bank of Italy and Pacific-Southwest Trust and Savings Bank, for conference), there was a loss in commercial deposits of $534,353.06; in savings deposits $222,082.16; in time certificates of deposit $9,567.42; and a gain in demand certificates of deposit of $2,005.25; that is, there was a total loss in deposits of $763,997.39. In the several days succeeding, until the purchase and sale agreements became effective, on March 1, 1924, there was a loss in these same items of deposits amounting to $231,503.20.

To sum up: In the period from December 31, 1923, to March 1, 1924, the Valley Bank lost in commercial deposits $1,329,525.04; in savings deposits $507,535.16; in demand certificates of deposit $14,059.39; and in time certificates of deposit $76,445.51, or an aggregate loss in deposits in a period of two months of $1,927,565.10. Attached hereto are tabulations of the deposit liabilities and loaning tendencies of the Valley Bank. The first of these shows the trend of deposit liabilities and loans, entitled "growth and expansion," and is made a part hereof marked Exhibit 30. The other entitled "summary of deposit liability" shows the trend in deposits from November 13, 1923, to March 1, 1924, and is made a part hereof and marked Exhibit 31.

A bank which is in the condition in which the Valley Bank found itself at the close of 1923, operating at a loss, in a frozen condition and in need of money to meet demands of depositors, invariably will make frantic attempts to get money from whatever source it may. The two most patronized sources are deposits of public money and loans from other banks. The former, of course, requires securities in form of high class state, county and municipal bonds, and by hypothecating these bonds destroys the secondary reserve of the bank. The latter form of borrowing is by hypothecation of paper acceptable to the loaning bank. Both of these means of meeting the demands of depositors were exhausted by the Valley Bank.

On October 1, 1923, the public deposits in the Valley Bank were but $866,758.17. This amount was increased by December 15 to $1,142,363.02. On January 7 it was $1,293,785.22 and on February 19 was at the high mark of $1,326,199.86. The Valley Bank thus succeeded in increasing its borrowing of public funds from October 1, 1923, to February 19, 1924, by $460,000. In this connection it may be noted that practically all the available high class bonds owned by the Valley Bank were hypothecated to secure public deposits, thus withdrawing security from the individual depositors. The total of bonds of all kinds held on October 1, 1923, was $1,699,480.21. On December 31, 1923, this figure was $1,686,886.13. This amount increased necessarily to provide collateral for public funds and on January 24, 1924, was $1,798,077.60. On February 7, 1924, it was $1,742,288.55. In the latter part of the month of February when the public deposits commenced to be withdrawn, the total bonds held dropped to $1,608,907.30 and on March 1, 1924, to $1,496,497.67.

The Valley Bank likewise exhausted all its sources for borrowing. In the fall of 1923 the Valley Bank had been a heavy borrower from the Crocker National Bank of San Francisco, the greatest amount being $672,455.86. The Crocker Bank, however, had reduced this amount to $250,000 by the last part of December, 1923, and never increased it. This was a secured credit. The fact that the Valley Bank was never able to increase its borrowings with the Crocker Bank, although in dire need of money, would in itself seem to be potent evidence of the condition of the Valley Bank. If the Bank of Italy and Pacific-Southwest Trust & Savings Bank had not come forward and loaned money to the Valley Bank it could not have remained open much beyond the middle of February. When the Valley Bank changed its management on February 7, 1924, it was agreed that the Crocker National Bank, the Bank of Italy and the Pacific-Southwest Trust & Savings Bank would extend a secured credit of $500,000 each. The Valley Bank was never at any time able to provide sufficient good paper to utilize this credit to the full extent. On February 9, 1924, the Bank of Italy loaned $100,000 and the Pacific-Southwest $75,000. On February 16, these loans amounted to $100,000 each and by February 21, $175,000 each. On February 23d it had increased to $275,000 loaned by the Bank of Italy and $250,000 by the Pacific-Southwest, this in addition to the $250,000 already loaned by the Crocker National Bank. On February 26, 1923, this borrowing from the Bank of Italy had increased to $325,000 and from the Pacific-Southwest to $273,450; and on March 1st the total amount borrowed from the Bank of Italy amounted to $366,000 and from the Pacific-Southwest Trust & Savings Bank, $323,450, in addition to the $250,000 which had been borrowed from the Crocker National Bank. This made a total of borrowed money on that date of $939,450. The Crocker National Bank on this date held $410,312.76 in paper as collateral for the loan while a less amount was held by the other two banks which each held $55,000 in bonds as collateral for their larger loans.

The express purpose of these borrowings from the three banks was to furnish the Valley Bank with sufficient money to enable it to extend credit to its borrowers for crop purposes, to finance seasonal needs and to take care of moving the crop, but as an actual fact this money was

misapplied by the Valley Bank and was not used to serve this purpose at all but was used to meet the demands of depositors, as was the borrowing of public funds.

During the fall season of 1923, rediscounts of the Valley Bank with the Federal Reserve Bank had amounted to over a million dollars. When the harvest season was over, this amount was reduced to around $500,000. The Valley Bank was at this time attempting to collect on its paper and good paper available for rediscount was being collected and rediscounts decreased. The collections on the paper of the Valley Bank during this period preceding March 1, 1924, was under $600,000. When the withdrawals of deposits became acute, all possible paper was sent to the Federal Reserve Bank for rediscount purposes, but the paper of the Valley Bank available for rediscount purposes was insufficient to provide much more than $500,000. The governor of the Federal Reserve Bank on February 20, 1924, advised me, that they had gone as far as they could go with the Valley Bank.

The Valley Bank's serious condition during the period preceding March 1, 1924, was strongly evidenced by the shortage in its reserves, that is in the minimum reserves required by law to be maintained against their deposit liabilities. The reserves of the bank were very low during December, 1923, and January, 1924, by reason of the withdrawals of deposits which had been under way for a long time, and were far short of the reserves required against reasonably anticipated withdrawals. On February 6, 1924, the minimum legal reserve became deficient and remained continuously deficient until March 1, 1924, the date of the sale of the bank. On February 21, the date on which I went to Fresno to consult with members of the Clearing House there with reference to allaying the uneasiness of the feeling of the public concerning the Valley Bank, and later on which day I summoned the representatives of the Bank of Italy and Pacific-Southwest to Fresno for a conference, the minimum legal reserves of the Valley Bank were short $234,477 or a deficiency of 62 per cent. A fine was subsequently levied by the Federal Reserve Bank upon the Valley Bank for a net average deficiency in reserves of $127,332 for the semimonthly period ending February 29, 1924.

The reserve position and overloaned condition of the Valley Bank was known to its officers early in the year 1923. A memorandum has been found in the papers of the Valley Bank in the handwriting of J. E. Andres, the auditor of the Valley Bank, who committed suicide on December 26, 1923. This memorandum is an analysis of the condition of the Valley Bank as of January 18, 1923, although inadvertently dated January 18, 1922. The amount of the Valley Bank deposits set out in the memorandum shows that the memorandum relates to January 18, 1923. This memorandum shows that the precariousness of the condition of the Valley Bank was clearly understood by Andres and that it was a condition which required retrenchment, if due regard was to be had for the safety of the depositors of the commercial department of the Valley Bank. Mr. Andres' memorandum shows that "to take care of the natural decrease in our deposits, which has already begun, a reserve of at least 25 per cent, which is conservative, should be kept." His analysis further showed that the reserve requirement in the head office was $876,000 and that at that

time the Valley Bank had available a reserve of only $247,000. His analysis further states: "This will show that at our head office we are short in our reserves $629,000, or in other words overloaned that amount." Again his memorandum states: "We have $365,000 in commercial paper but $100,000 has been offered for sale to cope with present needs and an additional $125,000 will have to be disposed of to take care of bonds to protect municipal deposits. This will leave us with practically no secondary reserve and no provision for the repayment of municipal deposits other than the sale of bonds or borrowed money." And again it states: "Our unsecured loans have increased $406,000 from November 15th and our individual deposits have decreased $303,000." The memorandum then gives an analysis of the commercial department of the bank as a whole showing deposits of $5,925,000, a 25 per cent reserve recommended which would amount to $1,431,000, a total reserve available of $447,000, and the conclusion that the bank is overloaned by $984,000. This analysis by Andres gives a fairly correct picture of the overextended condition of the Valley Bank in January, 1923. As shown above, the actual condition during the year 1923 had gotten considerably worse and had improved in no respect. A copy of this analysis of condition made by Mr. Andres, the auditor of the Valley Bank, is attached hereto, made a part hereof and marked Exhibit 32.

An additional indication of the increased seriousness in the condition of the Valley Bank during the first two months of 1924 was the tendency of the bank clearings of the Valley Bank through the Fresno Clearing House. From the period beginning January 30, 1924, to and including March 1, 1924, the drawings against theValley Bank were in excess approximately 325 per cent over the checks turned in on other banks to the Fresno Clearing House.

Every condition conducive to producing a crisis in the affairs of the Valley Bank, therefore, was present and, of course, known to the officers and management of the Valley Bank in the latter part of February, 1924, when as Superintendent of Banks, I took steps for the protection of the depositors of the Valley Bank. On February 24, 1924, the manager of the Valley Bank, Mr. J. E. Fickett, stated that the condition of the Valley Bank had proved to be much more serious than he believed it to be when he took charge as Executive Vice President and stated that the situation was becoming daily more serious and in fact he had reached the point where he felt he should be relieved of further responsibility for accepting deposits with his then knowledge of the bank's condition. On the next day at the directors' meeting of the Valley Bank, Mr. Fickett when called into the meeting stated that the bank could not stand a run of two hours.

The above set out matters, however, were but the surface indications of the fundamental unsoundness of the Valley Bank. The Valley Bank was on March 1, 1924, and had been at least during the preceding two months and probably for several months prior thereto, absolutely insolvent, in that the liabilities of the Valley Bank to its creditors and depositors exceeded the value of its assets. This condition had for some time been concealed by the principal officers of the Valley Bank, to whose manipulations, illegal and irregular acts and unsound loaning policy, the condition of the bank was primarily due.

The report of our examiner, R. C. Barth, under date of November 13, 1923, as analyzed in the examination letter of January 8, 1924, to the Valley Bank, showed not only an impairment of capital in the Valley Bank, but the serious and alarming condition constituting a menace to the safety of the bank and its depositors. The immediate write-offs ordered to be made were large and amounted to $230,000. The report showed the imminence of future write-offs of a considerable amount. Loans of a large amount were listed as doubtful and subject to criticism. Had all the facts been available at the time, practically all of the paper classified as doubtful and criticised, and amounting to many hundreds of thousands of dollars, would have had to be classified as bad paper. In the analysis of Barth's examination report there was classified as bad paper only the loans so clearly then known to be bad as to require their instant elimination from the bank's assets. As doubtful paper, there were classified those loans on which apparently a loss would have to be taken. A careful perusal of the facts set forth in the report of Examiner Barth, which is attached hereto and made a part hereof, marked Exhibit 33, will show that practically all loans there criticised were actually bad, even according to the limited information available at that time, and that the losses in commercial paper then known to the officers of the Valley Bank amounted to practically the entire capital of the bank.

Some two months later, that is, in January, 1924, Mr. H. C. Carr of Porterville, at that time President of the California Bankers Association, and a careful and competent banker of years of experience, made an examination of the paper of the Valley Bank at the request of the Crocker National Bank of San Francisco, who had loaned a considerable sum to the Valley Bank. Mr. Carr found the paper of the Valley Bank to be in exceedingly bad condition and he found that there would be a loss of at least a million dollars. So convinced was he of the unsound condition of the Valley Bank that he of his own motion urged that responsible banks take over the Valley Bank.

Early in February, 1924, at the request of certain directors of the Valley Bank, Mr. J. E. Fickett, prior to his employment by the Valley Bank as its Executive Vice President, went to Fresno and made a two-day examination of the head office and certain of the branches of the Valley Bank as to the commercial loans. Although this examination by Mr. Fickett was not a complete examination of all the paper of the bank, the examination was complete enough for Mr. Fickett to determine that there was a loss of at least $600,000 in the paper of the Valley Bank. Mr. Fickett accepted employment by the Valley Bank as its manager in the hope that if he could be successful in cutting down the exorbitant overhead of the bank, stop the payment of dividends, stop the run on the bank and absorb some of the losses by earnings and repair the capital by levying some assessments on the stock, the institution might be saved. As before stated, during his incumbency as manager of the Valley Bank, he was so occupied with discounting of notes and obtaining money to pay depositors with that he was never able to put his plans into execution. The credit arranged from other banks furnished considerable money which he supposed could be used in the ordinary business of the bank, but practically all of this money it was necessary to use for the payment

of depositors and the institution had ceased to function as a bank. Mr. Fickett found soon after he accepted employment by the Valley Bank that his estimate of losses of $600,000 was far too low and that unless some drastic changes were made, the bank would have to close.

In January, 1924, when the officers of the Valley Bank asked the Bank of Italy for a loan of a million dollars and offered to sell the bank to the Bank of Italy, the Bank of Italy sent its chief examiner, Mr. W. H. Snyder, to examine the Valley Bank. Mr. Snyder had had many years of experience in the examination of banks, both for the State of California and subsequently for the Bank of Italy. Mr. Snyder reported to the Bank of Italy that the loss in the paper of the Valley Bank would amount to $1,500,000 or $1,600,000 and that there was a total of $3,000,000 of bad and doubtful paper in the Valley Bank. This estimate of loss made by Mr. Snyder in January, 1924, was the nearest of early estimates to what will be the actual loss in the Valley Bank assets.

Several months ago, in order that there might be no question concerning the condition of the Valley Bank prior to its sale and that it might be determined what the loss would be, if any, which would be suffered by the Bank of Italy and the Pacific-Southwest Trust & Savings Bank by reason of their purchase of the Valley Bank, as Superintendent of Banks through my Chief Examiner I caused an examination to be commenced of the Bank of Italy and Pacific-Southwest Trust & Savings Bank as to the condition and value of those assets acquired by said banks by purchase from the Valley Bank on March 1, 1924. This examination was made by two experienced bank examiners, Mr. H. A. Sonne and Mr. E. B. McBride. In order that the examination should be absolutely impartial, the Chief Examiner obtained the services of these two examiners from the Federal Reserve Bank of San Francisco. These men were duly appointed and qualified as state bank examiners. Their only instructions were given to them in writing by the Chief Examiner, and these instructions were as follows: "You are hereby instructed to make a special examination of any and all assets which were taken over from the Valley Bank of Fresno by the Bank of Italy and Pacific-Southwest Trust & Savings Bank at the time of the purchase by these banks of the Valley Bank on or about March 1, 1924. You are requested to establish a complete list of assets as of the date of sale. You are also requested to establish the present condition and value of those assets which now remain." The examination was conducted jointly and the final report was signed and verified jointly. A copy of the report of examination made by Examiners Sonne and McBride is attached hereto, made a part hereof, marked Exhibit 34. As to certain of the loans a supplemental examination was made by two of the best of our state examiners, Mr. John M. Gregory and Mr. W. B. Davis. This report of this supplemental examination by Messrs. Gregory and Davis which constituted a part of the examination report of Sonne and McBride, is attached hereto and made a part hereof, marked Exhibit 34*a*. The results of this supplemental examination are so astounding and reveal such corruption to have existed in the Valley Bank that criminal action should be commenced by authorities of Fresno County. The Valley Bank on the first day of March, 1924, and for some time prior

thereto was totally insolvent, and this conclusively appears from the report of examination above referred to embodied in Exhibits 34 and 34*a*.

At the risk of prolixity I will set down here the outstanding facts as to the condition of the Valley Bank. These facts in themselves will demonstrate the absolute insolvency of the Valley Bank at all times here under consideration. The Valley Bank on the date it sold its assets and business had deposit liabilities, including public deposits, amounting to $9,084,357.53; it had liabilities for borrowed money due to banks of $1,461,888.94; and other liabilities of $1,378.28. Under and by virtue of the purchase and sale agreement between the Valley Bank and Pacific-Southwest Trust & Savings Bank, a copy of which has been attached hereto, and made a part hereof as Exhibit 25 (a subsequent agreement, Exhibit 26, having been entered into between the Pacific-Southwest Trust & Savings Bank and Bank of Italy in accordance with prior agreement), the sale was made in consideration of the assumption by the purchasing bank of all liabilities of the selling bank, excepting the capital, surplus and undivided profits of the selling bank. The liabilities assumed, therefore, amounted to $10,547,624.75. In addition, the purchasing bank assumed the burden of liquidation of the revolving fund hereinafter described, representing the capital, surplus and undivided profits accounts of the Valley Bank, totaling $1,071,512.92. The assets taken over by this purchase and sale amounted in face value to $11,619,137.67. Their actual value, however, with which we are most concerned, did not amount to the liabilities assumed by the purchasing banks. This condition, of course, means that the Valley Bank was insolvent at the time of the sale.

Of the loans taken over on March 1, 1924, amounting to $8,160,207.45 there have been paid amounts reducing the loans held on May 26, 1925, to $5,058,849.93. These loans paid, of course, represented about half of the good loans held by the Valley Bank and a great deal of this paper even was removed by means of renewals of the loans with the Bank of Italy or the Pacific-Southwest Trust & Savings Bank, such transactions being considered the equivalent of payment in full, so far as the liquidation of the assets of the Valley Bank is concerned. Securities and reserves, of course, were taken over and worth practically their face value. By this process of reduction, the assets of the Valley Bank held by the Bank of Italy and Pacific-Southwest Trust & Savings Bank on May 26, 1925, amounted to $5,690,052.48, of which about $5,000,000 represent the face value of loans. It was in this body of loans chiefly that losses existed which rendered the Valley Bank insolvent prior to its sale. The value of these assets has been very carefully appraised. Of the said assets acquired from the Valley Bank and now held by Bank of Italy and Pacific-Southwest Trust & Savings Bank, totaling $5,690,052.48, the good assets amount to $3,219,-767.03. The assets of doubtful value amount to $642,003.04. The bad assets, constituting determined losses, amount to $1,253,119.63. In addition to the above items, there is an item of $575,162.78 which represents the amount at which certain assets were carried on the books of the Valley Bank, to wit: banking houses, $268,392.84; furniture and fixtures and vaults, at branches $137,825.22; head office vaults $33,135.09;

head office furniture and fixtures, $54,740.25; head office construction account $81,069.38.

In addition to the determined losses above specified, however, there are additional losses which can not be determined in exact amount at this time, but can be closely estimated from experience and knowledge of the general character of the loans and other assets. For instance, even in those assets classified as good assets, inasmuch as many of the loans are predicated upon real estate or real estate equities, liquidation will depend largely upon a sale of the land or the ability of the borrower to refund. A very large percentage of the real estate loans are without sufficient margin to assure liquidation by the latter course and closing out of these loans will necessarily be very slow. In a very large percentage of cases, experience shows that margins and equities are wiped out and destroyed by adverse conditions which develop in the affairs of the borrowers. A loss of from 5 per cent to 10 per cent in this classification of loans is probable. In the doubtful assets, losses are probable but not as yet fully determined. The losses in these assets will be very substantial and in many instances the assets will prove entirely worthless, although there is still hope of some recovery. The losses in this classification, therefore, will amount to at least 50 per cent. The assets above set out as bad assets constitute loans and other securities which are uncollectible and worthless. In the unclassified assets, that is the banking house and furniture and fixtures, the total amount of loss at this time can not be accurately stated, inasmuch as the value of these assets is subject to adjudication under the purchase and sale agreement. However, it is absolutely certain that heavy losses will be taken in this classification of assets. For instance, the furniture and fixtures of the head office of the Valley Bank were sold to the First National Bank in Fresno for $39,000. This represents a loss of over $15,000, although the furniture and fixtures were sold for the best obtainable price. The head office construction account of $81,069.38 represents a total loss. This figure represents the cost of remodeling the head office of the Valley Bank, which was held under lease. This item represented an expense item and was never an asset in any sense of the word. Included in these unclassified assets, there were other amounts which represent losses. The furniture and fixtures and vault accounts for the branches of the Valley Bank include a very substantial item of loss, the cost being exorbitant in some instances and the class of furniture and fixtures in some instances being out of all proportion to the character of the community and the size of the branch and the amount of business transacted at the branch. Of this the Reedley branch was a conspicuous example. No depreciation or very little depreciation had ever been charged against the furniture and fixtures accounts of the Valley Bank. In the unclassified assets, therefore, at the figure of $575,162.78 there is a certain loss of at least $125,000 and probably $150,000.

To sum up the condition and value of the assets acquired from the Valley Bank, as showing the condition of those assets prior to the sale: the known and determined losses are $1,253,119.63; the loss in the doubtful assets will amount to at least $320,000; the loss in the

assets classified above as good assets will in all probability amount to $250,000; and in the unclassified assets representing banking houses, furniture and fixtures and expense charges carried as assets, there will be a loss of at least $125,000. That is to say, the aggregate losses in the assets acquired from the Valley Bank by the Pacific-Southwest Trust & Savings Bank and the Bank of Italy will be $1,900,000 or more. Most of these losses are definitely determined now and most of them were definitely determined on March 1, 1924. A loss will therefore be incurred by the Pacific-Southwest Trust & Savings Bank and the Bank of Italy of $800,000, or $400,000 each, because less than $1,100,000 is absorbed by the capital, surplus and undivided profits accounts of the Valley Bank.

As above stated, under the purchase and sale agreement between the Valley Bank and Pacific-Southwest Trust & Savings Bank, the purchasing bank agreed to place in a revolving liquidating account assets to be selected by it of a face value equivalent to the capital, surplus and undivided profits of the selling bank. It was agreed that as and when the assets in the liquidating account were liquidated, the purchasing bank would replace them with other paper to be drawn from the assets of the selling bank and upon the final liquidation of such assets in total as the purchasing bank might determine to be bad or doubtful, or otherwise objectionable, the purchasing bank would pay to the stockholders of the selling bank whatever amount might have been realized from the liquidation thereof in excess of the total liabilities assumed by the purchasing bank, the purchasing bank to use due diligence to liquidate all bad or doubtful assets during the liquidating period, which liquidating period was fixed at three years. The purchasing bank was given the right to withdraw from the liquidating assets such assets as it might deem acceptable at a value less than their face, such depreciation to be arrived at by agreement with the president of the selling bank or some person designated by the stockholders thereof, failing which to be determined by the Superintendent of Banks. This arrangement is explained in a report rendered to the stockholders of the Valley Bank by Mr. A. E. Webb, who had been selected by the stockholders as their liquidating agent. This report was made in the latter part of 1924 and a copy of same is attached hereto, marked Exhibit 35. Under the purchase and sale agreement, the assets purchased by the Pacific-Southwest Trust & Savings Bank and the Bank of Italy were to be held by them for collection, and a record made of all amounts of principal and interest collected as well as all disbursements made in connection with these interests. The Pacific-Southwest Trust & Savings Bank and the Bank of Italy were to be entitled to the principal of all these notes with the exception of the amount paid equal to the capital, surplus and undivided profits of the Valley Bank at the date of the take-over and all losses were to be charged against the stockholders.

The following is a statement of the amount of paper placed in the revolving fund, showing the amount paid thereon up to May 26, 1923, showing the amount estimated as good and the amount of such paper which is doubtful or bad.

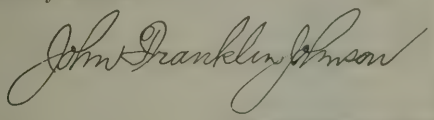
REVOLVING FUND—MAY 26, 1925.

Branch	Amount March 1, 1924	Paid	Estimated good	Doubtful	Bad
Biola	$17,165 40	$454 77	----------	$515 00	$16,195 63
Kerman	8,079 48	----------	$2,400 00	----------	5,679 48
Monterey	14,424 66	2,871 15	9,060 66	794 85	1,698 00
Reedley	220,721 51	15,567 38	3,076 60	3,709 46	198,348 07
Selma	184,679 18	12,547 14	1,847 61	5,631 68	164,652 72
Sanger	108,592 88	5,534 07	750 00	11,363 67	90,945 14
West Fresno	72,696 22	2,621 76	605 00	12,278 11	57,191 35
Head office	497,732 91	36,959 48	2,450 00	92,760 33	365,563 10
Totals	$1,124,092 21	$76,575 75	$20,189 87	$127,053 10	$900,273 49

This tabulation shows the character of paper originally placed in the revolving fund. The fact that the total amount collected from the revolving fund is only $76,575.75 is sufficient evidence of the bad character of the paper.

The terms of purchase of the Valley Bank were eminently fair and just to the Valley Bank. Under the agreement between the Valley Bank and the Pacific-Southwest Trust & Savings Bank and Bank of Italy, if upon the final liquidation there shall have been liquidated assets equal to or in excess of the liabilities assumed by the purchasing banks, the amount of the excess will be paid to the stockholders of the selling bank and the purchasing bank will also return to the stockholders of the selling bank all unliquidated obligations remaining in the liquidating account, that is to say that under no circumstances can the purchasing banks profit from the transaction. On the other hand, if the assets are not equal to the liabilities assumed, which is absolutely certain, the Valley Bank being insolvent at the time of the sale on March 1, 1924, the only recourse the purchasing banks have to recoup themselves from their loss is the guarantee of those stockholders who consented in writing to the purchase and sale agreement, comprising a little more than two-thirds of the stockholders. The practical impossibility of enforcing this guarantee to its full extent against so numerous a body of guarantors of varying degrees of responsibility, each guarantor being liable only for an amount in proportion to his holding of stock in the Valley Bank, means that it is an absolute impossibility for the purchasing bank to ever recoup themselves for the losses which they have sustained in protecting the depositors of the Valley Bank against loss.

In closing, permit me hastily to summarize the position of the State Banking Department and myself as Superintendent of Banks and head of that department. In the latter part of February, 1924, we were confronted with the necessity of immediately and drastically dealing with the Valley Bank for the protection of its depositors. The bank's capital was known to us to be greatly impaired, and the bank was, in fact, actually insolvent, a great many illegalities and irregularities had occurred in the conduct of the business and in the management of the bank, involving not only their executive officers in numerous illegal transactions, but involving nearly all, if not actually all, of the directors in some of the transactions. A heavy withdrawal of deposits was in progress, a silent run, which threatened at any moment to break out into an open demand of its depositors upon the bank to repay their deposits. The reserves of the bank were impaired. The assets of the bank were in a frozen state and not available and not collectible



to meet the increasing demands of depositors. The bank had exhausted all sources of obtaining money to continue business and could obtain little additional money by reason of the bad and doubtful condition of its assets. The governor of the Federal Reserve Bank personally called upon me on February 20, 1924, to advise me that the Federal Reserve system could do nothing further to aid the Valley Bank. As Superintendent of Banks, because of the inability of the stockholders to meet an assessment, I was faced by only two practical alternatives, first, to close the bank and liquidate it, or secondly to ask large and responsible banking institutions to come to the rescue of the depositors and negotiate for the purchase of the bank, assuming the deposit liability. Accordingly I called upon the Bank of Italy and the Pacific-Southwest Trust & Savings Bank who were very loath to assume the liability of the Valley Bank to its depositors for the reason that they knew the dangerous and unsound condition of the Valley Bank and its assets. To close the bank meant a financial disaster in the San Joaquin Valley and the closing of other banks as well, with heavy loss to depositors if not additional loss to the stockholders.

My duty under the law was to the depositors of the bank, it being for their protection that the California Bank Act and every regulatory banking measure has been enacted. Acting in the exercise of the discretion vested in me for the protection of the depositors, therefore, I requested and urged these two large and responsible banks to assume the liability of the Valley Bank to its depositors and take over the assets by purchase and sale. Their offer to the Valley Bank and the subsequent sale and assumption by them of the deposit liabilities of the Valley Bank obviated what would beyond question have been the greatest financial collapse ever seen in the State of California, meaning certain losses to the depositors of the Valley Bank aggregating hundreds of thousands of dollars, and involving probable losses to the San Joaquin Valley and its inhabitants of many hundreds of thousands of dollars additional. While the stockholders of the Valley Bank unfortunately have lost their investment, the investment was a total loss long prior to the sale of the Valley Bank, and was the work of the unscrupulous management of the bank, who filled their own pockets with thousands upon thousands of dollars and filled the Valley Bank with hundreds of thousands of dollars worth of illegal, doubtful, bad and rotten loans, and betrayed and robbed the many stockholders whose money was invested in the institution and who had placed that management in positions of trust, and which management had endangered millions of dollars of the savings of innocent depositors. These depositors looked to the State Banking Department of the State of California to perform its duty and protect their deposits, and to the credit of our state it may be said that that duty was performed and the depositors were protected from loss.

As prior to the sale we believed our judgment correct in pursuing the course we did, so in retrospect, with greater knowledge of the conditions and with full knowledge of the insolvency of the Valley Bank, I feel that the course we pursued in the exercise of our discretion in urging the purchase and sale of the Valley Bank was the only course which could have been taken under the circumstances. No

competent banker or financier has ever questioned its wisdom; and when the facts as to the condition of the Valley Bank have displaced the misinformation and misrepresentation spread by those officers who so foully betrayed their trusts, those stockholders of the Valley Bank who may now question its necessity can not doubt the wisdom of the course which the great majority of the stockholders at that time voluntarily approved.

Respectfully submitted.

Superintendent of Banks.

[NOTE.—The exhibits referred to have been transmitted to the Governor with the report. Inasmuch as the exhibits are voluminous they are not printed here with the main body of the report.]

SEVENTEENTH ANNUAL REPORT

OF THE

SUPERINTENDENT OF BANKS

OF THE

STATE OF CALIFORNIA

1926

Showing the Financial Condition of
State Banks at the Close of Business
June 30, 1926

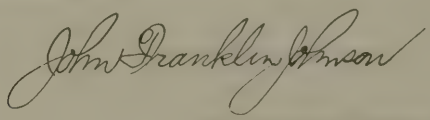
JOHN FRANKLIN JOHNSON
Superintendenf of Banks

CALIFORNIA STATE PRINTING OFFICE
JOHN E. KING, State Printer
SACRAMENTO, 1926

LETTER OF TRANSMITTAL.

October 29, 1926.

His Excellency, Friend Wm. Richardson,
Governor of the State of California,
Sacramento, California.



DEAR SIR:

I am pleased to submit to you herewith in accordance with section 140 of the Bank Act, the annual report of the Superintendent of Banks for the fiscal year ending June 30, 1926. This is the seventeenth annual report under the present law, and the fourth of the present Superintendent of Banks.

Appended hereto and made a part of this report are the following:

1. Summary of condition of every state bank.
2. A list of new banks and branch offices.
3. Name and compensation of each person employed and the whole amount of receipts and disbursements of the department during the fiscal year.
4. Miscellaneous changes in banks.
5. Reports of deposits unclaimed for more than twenty years.
6. Report on banks in liquidation.
7. Tabulated statement of condition of banks.

Yours very truly,

Superintendent of Banks.
